Foreword:

These reference sheets are intended to help new and old players get to grips with the Horus Heresy 2.0 and speed up gameplay.

These reference sheets should be considered “guidelines” and should not be used as a substitute to owning the rulebooks themselves. If unsure of a rule, please do consult the relevant rulebook.

If you have any feedback for any section of this document, you can access an online version that can be marked up with comments.

The link can be found in the Appendix.

The Flaymaster

BUILDING YOUR ARMY

Detachments (p278)

1. Select a Primary Detachment.
2. Players may also include an optional detachment but must fulfil its compulsory components.

Crusade Force - Primary

Compulsory:

- 1 HQ
 - 2 TROOPS
- ##### Optional:
- +2 HQ
 - +4 ELITES
 - +4 TROOPS
 - +3 FAST ATTACK
 - +3 HEAVY SUPPORT
 - +1 FORTIFICATION
 - +1 PRIMARCH

Allied Detachment - Optional

Compulsory:

- 1 HQ
 - 1 TROOPS
- ##### Optional:
- +2 ELITES
 - +3 TROOPS
 - +1 FAST ATTACK
 - +1 HEAVY SUPPORT

Lords of War Detachment - Optional

Compulsory:

- 1 LORDS OF WAR
- Army must be at least 2,000 points.
Combined points value of all Lords of War and Primarchs must not exceed 25% of the army's total points cost.

Allies and Allegiances (p292)

Sworn Brothers

- Treat allied models as friendly models for all purposes (Psychic Powers, Warlord Traits etc).
- Units can be joined by Independent Characters.
- May not Embark in each other's Transport vehicles.
- Rules that affect a particular force due to their Legiones Astartes rules do not carry over to allies.

Fellow Warriors

- Treat allied models as enemy models that cannot be targeted, but may be affected by abilities that effect enemy models.
- Cannot benefit from allied model's abilities Psychic Powers, Warlord Traits etc.

Distrusted Allies

- Treated like Fellow Warriors except units in the Allied Detachment are never counted as Scoring Units and may not hold Objectives.

By The Emperor's (or the Warmaster's) Command

- Treated as Distrusted Allies, except any units within 6" suffer of each other suffer -1 to LD until no longer within 6".

Agents of the Emperor (or Warmaster)

- Treated as Sworn Brothers to either Loyalist or Traitor forces respectively.

Primary Detachment

Allies Chart

Allied Detachment

	Dark Angels	Emperors Children	Iron Warriors	White Scars	Space Wolves	Imperial Fists	Night Lords	Blood Angels	Iron Hands	World Eaters	Ultramarines	Death Guard	Thousand Sons	Sons of Horus	Word Bearers	Salamanders	Raven Guard	Alpha Legion	Mechanicum	Imperial Army

PRE-GAME STEPS

Standard Pre-Game Steps

1	Determine Deployment Map: Decide with opponent or roll off.
2	Choose armies.
3	Set up the battlefield.
4	Place objective markers (1-2" in diameter).
5	Roll for mission: Decide with opponent or roll off.
6	Roll off with opponent to decide deployment zones.
7	Declare if either player wants Night Fighting to occur.
8	Roll off to decide who will deploy first and take the first turn. Winner may decide to go first or second.
9	1. Determine Warlord Traits. 2. First Player deploys their entire army (unless using Staged Deployment , see page 313). 3. Declare Reserves, Deep Strike Assault, Flanking Assault, other alternative deployment methods.
10	Second Player deploys.
11	Deploy Infiltrators If both players have Infiltrators, roll off. The winner can choose to deploy a unit first or second, then alternate placing units.
12	Redeploy Scouts If both players have Scouts, roll off. The winner can choose to redeploy a unit first or second, then alternate redeploying units.
13	Seize the Initiative: The Second Player may try to take the first turn on a roll of 6.

Night Fighting (p308)

- If Mission uses Night Fighting, before deployment, either player may declare they wish use Night Fighting.
 - Either player rolls a D6, on a 2+ the Night Fighting special rule is in effect Turn 1.
 - At start of Turn 2, roll a D6, on a 4+ the Night Fighting continues.
 - At end of Turn 2 Night Fighting ends.
- Effects:**
- All units -1 to Leadership and Ballistic Skill.
 - No unit may draw LOS more than 24" away.
 - Barrage weapons targeting units over 24 must re-roll the "Hit" on the Scatter Dice.

The Warlord (p284)

- If Warlord dies all effects of Warlord Trait/Special Rules are immediately lost, including Bonus to Reactions.
- If Warlord Special Rules allowed Alternative Deployments such as Deep Strike or Outflank, these units must instead Deploy using the normal Reserves rules.

Core Warlord Traits

- Bloody-handed:**
- Warlord + units within 12" gain +1 to Combat Resolution.
 - +1 Reaction in the Assault Phase.
- Stoic Defender:**
- Warlord + unit gain the Pinning Special Rule for all ranged attacks.
 - +1 Reaction in the Shooting phase.
- Ever-Vigilant:**
- Warlord + unit uses Warlord's Initiative +1 to determine Run distances.
 - +1 Reaction in the Movement phase.

Sudden Death (p305)

- If one player concedes the battle, the game ends and the opponent automatically wins.
- If at the end of any game turn, one player has no models left on the table, their opponent automatically wins.

Random Game Length

Turn	Roll required
5	3+
6	4+
7	Game automatically ends

Objectives & Scoring Units (p307)

Objective Placement:
1. Roll off to see who places first marker.
2. Objectives may not be placed within 6" of a table edge or 12" of another objective, or in Impassable Terrain.
3. No objective may be placed inside an intact building, but may be placed on top of it.
4. If the building is removed, place the objective directly below the point it occupied.
5. If the restrictions mean the objective cannot be placed, mutually agree with opponent to move remaining markers to accommodate placement.
Objective Control:
- Must have 1+ scoring model and no enemy scoring or denial units within 3" of Objective Marker.
- A unit may only control 1 objective marker at a time, make clear to opponent which one the unit is holding if close to more than 1 objective.
Scoring Units:
Any unit with the Line sub-type is a scoring unit, unless it:
- Is embarked in a Transport Vehicle.
- Is a Zooming Flyer.
- Has a rule stating it never counts as a Scoring unit.
- Is Falling Back or is Pinned.
- Is a Building or Fortification.
Denial Units:
Any unit that does not have the Line sub-type is a Denial unit, unless it:
- Is embarked in a Transport Vehicle.
- Is a Vehicle.
- It has a rule stating it never counts as Denial unit.
- Is Falling Back or is Pinned.
- Is a Building or Fortification.

Standard Secondary Objectives (p305)

Slay The Warlord (1-2 VP)
If the enemy Warlord has been removed at the end of the Game. +1 VP if the Warlord was a Primarch.
Last Man Standing (1 VP)
The side with the greatest number of units at the end of the game gains 1 VP.
Attrition (1 VP)
The side that has destroyed the greatest number of enemy units at the end of the game gains 1 VP.
First Blood (1 VP)
The first unit that is completely destroyed by either player grants 1 VP. If both sides destroy an equal number of units simultaneously, they both score 1 VP.
Linebreaker (1 VP)
If a player has at least 1 Scoring model within 12" of opponents table edge, score 1 VP.
The Price of Failure (1 VP)
If this unit is removed, opponent scores 1 VP.

Infiltrators (p242)

- Any unit with this special rule may choose to setup as Infiltrators and are deployed after both sides have deployed their armies.
- Infiltrate is conferred to a Dedicated Transport vehicle but not to an IC and vice versa.
- Infiltrators may setup anywhere on the table more than 12" away from an enemy unit. If enemy unit cannot draw LOS to the unit, the distance is reduced to 9".
- A unit that deploys via Infiltrate cannot Charge on their first turn.
- Units with Infiltrate and Scout, Infiltrate and then may make a Scout move.
- Units with Infiltrate may also Outflank.
- If opponent also has Infiltrators roll off to decide who decides places the first unit, then alternate.

Scouts (p246)

- Any unit with this special rule may choose to redeploy after both sides have deployed (including Infiltrators) but before the Seize the Initiative roll.
- If the unit is Infantry, Artillery, Dreadnought or Automata they may redeploy up to 6".
- All other unit types redeploy 12".
- This move may take them outside their deployment zone.
- Must remain at least 9" away from enemy units.
- A unit that redeploy via Scout cannot Charge on their first turn.
- Units with Scout may also Outflank.
- If opponent also has Scouts roll off to decide who decides places the first unit, then alternate.

Preparing Reserves (p309)

- Each player may hold any number of units in Reserves.
- If a unit cannot be deployed, it must be placed in Reserves.
- The Owning Player must make it clear to their opponent what **Alternative Deployment** (if any) they are making use of such as **Deep Strike Assault** or **Flanking Assault**.
- The Owning Player must also make clear if any Independent Characters will be in Reserve and which unit they are attached to.
- If the unit is not using an **Alternative Deployment**, when arriving from Reserves, they must move on from the owning players table edge.

Arriving from Reserves

Turn	Roll required
2 & 3	3+
4	Unit automatically arrives

- Reserves rolls of a 1 always fail.
- Reserved units move on from owning player's board edge.
- If unit cannot fit onto board for whatever reason with its max move, move it the minimum additional distance until it fits.

Ongoing Reserves: If a unit leaves the battlefield voluntarily, it re-enters reserves and must be rolled for as normal. Only units with a specific special rule that indicates they can do this, may do so.

Deep Strike Assault [DSA] (p237)

- Each Player may assign 1 or more units with the Deep Strike special rule to perform a Deep Strike Assault (DSA). Each Player may only make 1 DSA.
- Units not assigned to the DSA must deploy normally or enter play from Reserves.
- When rolling Reserves roll once for all units in the DSA.
- Place 1 model from 1 of the units in the DSA anywhere on the table [*] and scatter the model 2D6.
- If model's final position is within [*], the Reactive Player may place the model anywhere within 18" but must be [*].
- Model must be placed in a way to allow rest of the unit to deploy.
- Once final position is determined, Active Player places rest of the models within the unit in coherency but must be [*].
- Active Player rolls a D6 on a 1, the DSA is Disordered and the Reactive Player may deploy each other unit within 24" of the first unit but must be [*].
- If a 2+ is rolled the Active Player places each other unit anywhere within 12" of the first unit but must be [*].
- Once all units have been deployed all enemy units within 6" of a model deployed as part of the DSA must take a Pinning Test.
- Enemy units may only make the Interceptor Reaction.
- Units part of a DSA may not Move or Run but may Shoot and Assault as normal.

[*]: 1" Away from an enemy model, table edge or impassable Terrain piece

Flanking Assault [FA] (p311)

- Each Player may assign 1 or more units with the Outflank, Infiltrate or Scout special rule to perform a Flanking Assault (FA) Each Player may only make 1 FA.
- Before Infiltrators are deployed and Scout moves are made, place a FA Marker anywhere on a table edge (including in enemy's deployment zone).
- Units not assigned to the FA must deploy normally or enter play from Reserves
- When rolling Reserves roll once for all units in the FA.
- Active Player rolls a D6, on a 1, the FA is Disordered and the Reactive Player may reposition the FA Marker anywhere on the board edge within 24". On a 2+ the Active Player may move the FA Marker 6".
- Active Player then moves each of their units assigned to the FA on from the point of the FA Marker one at a time.
- These units may make a full move and may run if desired.
- If there is not enough room for all of the units assigned to the FA, they move on in the controlling player's next turn (but do not generate Pinning Tests).
- Once all units have moved onto the table all enemy units within 6" of a model deployed as part of the initial FA must take a Pinning Test.
- Enemy units may only make the Interceptor Reaction.
- Units part of a DSA may not Move/Run again but may Shoot and Assault as normal.

REACTIONS

Reactions Overview

- Each player may make 1 Reaction in each phase of their opponent's turn.
- No unit may make more than 1 Reaction per phase.
- Some special rules and Warlord Traits may increase the number of Reactions but no player may ever increase their Reaction Allotment above three.
- No player may make more than **three** Reactions in any phase unless a special rule specifically allows for a number of Reactions above the limit of three.
- Any army may use Core Reactions and may use them multiple times throughout the game.
- Reactions do not limit a unit to take actions in future turns i.e., **Return Fire** will still allow the unit to fire in their next turn.
- Reacting units suffer no drawback or limit to their actions in future turns/phases.

Restrictions:

A unit may not make a Reaction if it is:

- Pinned
- Falling Back
- Locked in combat
- Has already made a Reaction in that Phase
- Another special rule restricts the Reaction

Advanced Reactions

When can I make a Reaction?

- Advanced Reactions are only available to players in specific and unique circumstances.
- Advanced Reactions use up the Reactive Player's Reaction points for the particular phase they are used in.

Death or Glory (p205)

- When the Active player declares a Ram Attack.
 - Resolve all Ramming Hits.
 - Reacting player must pass a Morale check to use.
 - Nominate 1 model in the unit that was Rammed.
 - The model may make 1 attack with a melee or ranged weapon which automatically hits.
 - Resolve any damage against vehicle's front AV.
 - Unless the vehicle becomes Stunned, Immobilised or Explodes the model is removed from play with no saves or damage mitigation rolls allowed.
- Vehicles may not make **Death or Glory Reactions**.

Interceptor (p309)

- Whenever an enemy unit enters play from Reserves and within LOS and range of Reacting unit.
- The Reacting unit may make a shooting attack targeting the unit that triggered this Reaction.
- Unit counts as stationary.
- Vehicles may only fire Defensive Weapons.

Specific Reaction Interactions

Type	Name	Effects
Unit Type	Dreadnought (Fearless)	- Can fire all weapons - May not be granted a Cover, Armour, Invulnerable Save or Damage Mitigation roll via Reactions, such as Evade
Unit Type	Automata (Fearless)	May not be granted a Cover, Armour, Invulnerable Save or Damage Mitigation roll via Reactions, such as Evade
Unit Type	Primarch (Fearless)	May not be granted a Cover, Armour, Invulnerable Save or Damage Mitigation roll via Reactions, such as Evade
Unit Type	Vehicle	- May not make Hold the Line or Death or Glory Reactions. - May only fire Defensive Weapons during Return Fire / Overwatch / Interceptor Reactions
Unit Type	Vehicle (Immobilised or Stunned)	In addition to the above, may not make Evade, Advance or Withdraw Reactions
Unit Type	Unit contains 1+ models with 0/no Movement	Unit may not make the Evade Reaction
Unit Type	Unit contains 1+ models with 0/no Initiative	Unit may not make Movement-based Reactions
Wargear	Jump Pack (Activated)	May not be used for Movement-based Reactions
Wargear	Jetpack (Activated)	Adds 6" to any Movement-based Reactions
Special Rule	Fearless	May not be granted a Cover, Armour, Invulnerable Save or Damage Mitigation roll via Reactions, such as Evade
Special Rule	Counter Attack	May not make the Hold the Line Reaction
Special Rule	Night Vision / Ignores Cover	Target unit may not make Shrouded (X) saves, such as from the Evade Reaction
Special Rule	Fleet (X)	Grants a bonus equal to the value in brackets movement as part of a Reaction
Special Rule	Slow and Purposeful	May not make Reactions
Special Rule	Pinning	A Pinned unit may not make Reactions
Special Rule	Fleet	Increase units' movement by value in brackets for any movement-based Reactions
Sub-type	Heavy	-1" to Movement based Reactions
Sub-type	Monstrous	Can fire all weapons
Sub-type	Light	Adds +1" to any Movement-based Reactions
Sub-type	Artillery	May not make Reactions
Sub-type	Flyer (Zooming)	- Does not trigger Movement-based Reactions - May only make the Evade Reaction
Sub-type	Super Heavy	- As vehicles - May only make Reactions in response to – Super Heavy Vehicles, Lumbering Flyers, Knights and Titans or any model with 8+ wounds
Sub-type	Knights & Titans	- As vehicles except use Initiative for Advance/Withdraw Reactions - May only make Reactions in response to – Super Heavy Vehicles, Lumbering Flyers, Knights and Titans or any model with 8+ wounds

Movement Phase Reactions (p160)

General:

- Any Reaction that allows a unit to move based on its Initiative Value may not be used if the unit contains any models with no initiative value (such as vehicles) or initiative 0.
- Units that make a move based on their Initiative ignore all modifiers from Difficult Terrain but must take Dangerous Terrain test as usual.
- Any unit that moves due to a Reaction suffers no penalty or drawback for moving in their next turn.

When can I make a Reaction?

- The Reactive player may choose to make the **Advance** or **Withdraw** Reaction once an enemy unit completely resolves its movement and is within 12" and can draw LOS to the Reactive player's unit.

Advance:

- The Reacting unit may move any number of inches equal to its unmodified Initiative directly towards the enemy unit that trigger this Reaction.
- In a unit with mixed Initiative values, use the highest.
- If a **Vehicle** may pivot once up to 90 degrees and move up to 6" directly forwards.

Withdraw:

- The Reacting unit may move any number of inches equal to its unmodified Initiative directly away from the enemy unit that trigger this Reaction.
- In a unit with mixed Initiative values, use the highest.
- If a **Vehicle** may pivot once up to 90 degrees and move up to 6" directly backwards.

Shooting Phase Reactions (p160)

General:

- Shooting attacks made as part of a Reaction do not cause Leadership tests due to models removed.

When can I make a Reaction?

- The Reactive player may choose to make the **Return Fire** or **Evade** Reaction once an enemy unit makes a shooting attack targeting a unit they control.
- Once all To Hit, To Wound and Armour Saves are made but before Damage Mitigation Rolls or casualties are removed.

Return Fire:

- The Reacting unit may make a shooting attack targeting the unit that triggered this Reaction.
- Unit counts as stationary.
- Template weapons may be used but only if enemy unit is within 8" and must use Wall of Death rule.
- The unit may not make any attacks indirectly that do not require LOS. i.e., Barrage weapons.
- Vehicles may only fire Defensive Weapons.

Evade:

- All models in the Reacting unit gain Shrouded (5+) special rule.
- Immobilised vehicles may not Evade.
- Units with 0 Initiative may not Evade.
- If a unit cannot move in this turn for any reason, it may not Evade.

Restrictions:

- Units may not make Shrouded saves against a unit with the Night Vision or Ignores Cover special rule.

Assault Phase Reactions (p160)

When can I make a Reaction?

- The Reactive player may choose to make the **Overwatch** or **Hold the Line** Reaction after an enemy unit has declared a charge targeting a unit they control and made its charge roll (Successful or not).
- Before models are moved, the Reactive player may make their Reaction.

Overwatch:

- The Reacting unit may make a shooting attack targeting the unit that triggered this Reaction.
- Unit counts as stationary.
- Template weapons may be used but only if enemy unit is within 8" and must use Wall of Death rule.
- The unit may not make any attacks indirectly that do not require LOS, such as Barrage weapons.
- Vehicles may only fire Defensive Weapons.
- The charging enemy unit may not take Cover Saves.

Restrictions:

- If the enemy unit becomes Pinned before any models are moved, the charge automatically fails.

Hold the Line:

- Reacting unit takes a Morale check.
- If passed the enemy unit's charge counts as a Disordered Charge.
- If the enemy unit's charge was unsuccessful, any other charges resolved against the Reacting unit count as Disordered.

MOVEMENT PHASE

Turn Sequence Summary	
0	Start the Game Turn
1	Start of the Active Player Turn: 1. Roll for Reserves.
2	Movement phase: 1. Move Reserves. 2. Regroup check for Failing back Units. 3. Flyers declare Zooming or Hover Mode before units Disembark. 4. Move units one at a time. 5. Reactive Player may make Reactions once a unit has finished their move, if applicable. 6. Vehicles declare if making a Ram Attack. 7. Any unit that has taken 25% casualties takes a Morale Check at the end of the Phase.
3	Shooting Phase: 1. Shoot units one at a time. 2. Reactive Player may make Reactions after a unit has shot but before models are removed. 3. Any unit that has taken 25% casualties takes a Morale Check at the end of the Phase.
4	Assault Phase: 1. Charge sub-phase. 2. Reactive Player may make Reactions after a unit has declared a charge and rolled distance but before any models are moved. 3. Fight sub-phase. Active player selects which combat to resolve before moving on to the next.
5	End of the Active Player Turn

Movement Steps	
1	Active player nominates a unit to move
2	1. Declare if the unit will run. If yes, add the Initiative value in inches of the model with the lowest initiative. 2. The unit may not Shoot or Charge in the proceeding Shooting/Assault phases.
3	1. Declare if the unit will enter/move through/ exit Terrain. 2. If so, deduct 2" from the unit's value. 3. Take Dangerous Terrain tests where applicable. 4. Remove models.
4	1. Move each model in the unit up to its Movement value. 2. Measure from the front of the base. 3. The final position of the model's base cannot be further than the distance it started in the Movement phase.
5	Reactions 1. The Reactive player may choose to make the Advance or Withdraw Reaction once an enemy unit completely resolves its movement and is within 12" and can draw LOS to the Reactive player's unit.
6	Pick another unit to move 1. Once all units have moved, proceed to Shooting phase.
Movement Restrictions (p147)	
Pivot: Pivoting on the spot does not count as moving. Locked: Units locked in Combat may not move. Unit Coherency: Each model in the unit must be within 2" of another model in the same unit and/or 6" vertically. If coherency is broken the unit must attempt to regain coherency in their next turn. If the unit cannot regain coherency with its movement value it MUST make a Run move also. Vertical Movement: A unit may move vertically any number of inches and may split its movement between horizontal and vertical movement. 1 incher: A model must always remain 1" away from an enemy model unless they are charging into combat.	

Terrain Types (p221)	
Difficult Terrain: (DT)	
-2 to Movement & Charges.	
Dangerous Terrain: (DGT)	
- Test as soon as model enters/moves through/exits. - On a 1, model suffers 1 Wound with no Armour, Cover Saves or Damage Mitigation rolls. - Only test once per Scenery type per phase.	
Impassable Terrain: (IT)	
- No model can enter, cross, move into or through. - Jump Packs, Skimmers, Flyers may move over Impassable Terrain.	
Imposing Statuary:	
- Designate as Traitor or Loyalist at start of game. - Any models of same allegiance within 2" gain Fearless. - Model in cover behind gains 4+ Cover Save.	
Area Terrain: (AT)	
Any model within the boundary of a zone of Area Terrain may claim cover. Default is a 6+ Cover Save.	
Ruins:	
- As Difficult Terrain 5+ Cover Save	
Barricades, Walls and Defence Lines: (BWDL)	
- As Difficult Terrain when charging through. - For purposes of Charge Moves, models that are B2B with the BWDL and 2" from each other count as B2B.	
Craters:	
- As Difficult Terrain. 6+ Cover Save, if Unit is Pinned grants a 4+ Cover Save.	
Jungles and Woods:	
- As Difficult Terrain. 6+ Cover Save.	

Movement Interactions				
Type	Name	Effect of Difficult Terrain	Run Move	Fall Back Distance
Unit Type	Infantry	-2 to movement and charge.	Use Unit's lowest Initiative value	2D6"
Unit Type	Cavalry	Take DGT test if model moves through/enters or exits Terrain.	Use Unit's lowest Initiative value	3D6"
Unit Type	Daemon	-2 to movement and charge.	Use Unit's lowest Initiative value	2D6"
Unit Type	Dreadnought	-2 to movement and charge.	Use Unit's lowest Initiative value	2D6"
Unit Type	Automata	-2 to movement and charge.	Use Unit's lowest Initiative value	2D6"
Unit Type	Primarch	-2 to movement and charge.	Use Unit's lowest Initiative value	N/A
Unit Type	Vehicle	Take DGT test if model moves through/enters or exits Terrain.	N/A	N/A
Wargear	Jump Pack (Activated)	Take DGT test if model moves through/enters or exits Terrain.	Use Unit's lowest Initiative value	2D6"
Wargear	Jump Pack (Not activated)	As standard Unit Type.	Use Unit's lowest Initiative value	2D6"
Wargear	Jetpack (Activated)	Take DGT test if model moves through/enters or exits Terrain.	Use Unit's lowest Initiative value	2D6"
Wargear	Jetpack (Not activated)	As standard Unit Type.	Use Unit's lowest Initiative value	2D6"
Special Rule	Fleet (X)	As standard Unit Type.	Increase Run move by value in brackets	N/A
Special Rule	Slow and Purposeful	As standard Unit Type.	May not Run	N/A
Special Rule	Move Through Cover	No effect, take DGT test as normal	N/A	N/A
Special Rule	Pathfinder	-2 to movement and charge. Do not take DGT tests.	N/A	N/A
Sub-type	Anti-Grav	- If model enters or exits Terrain take a DGT test . - May move over friendly/enemy models and vertical/impassable Terrain. - Can end move on Impassable Terrain if model can be placed.	Use Unit's lowest Initiative value	N/A
Sub-type	Artillery	-2 to movement.	May not Run	2D6"
Sub-type	Skimmer	If model enters or exits Terrain take a DGT test . - May move over friendly/enemy models and vertical/Impassable Terrain. - Can end move on Impassable Terrain if model can be placed.	N/A	N/A
Sub-type	Flyer (Zooming)	No effect.	N/A	N/A
Sub-type	Super Heavy	No effect – cannot be placed on Impassable Terrain.	N/A	N/A
Sub-type	Knights & Titans	No effect – cannot be placed on Impassable Terrain.	N/A	N/A

Morale (p191)	
Morale Checks	
- Always use highest LD of a model in the unit. - Roll 2D6, equal or below LD passes the check. Automatic Pass: Double 1 always passes. Automatic Fail: Double 6 always fails. - Must take a check at end of Shooting phase if unit has removed 25% or more models.	
Falling Back:	
- Units must make a Fall Back move after failing a Morale Check. The unit will make further Fall Back moves until the unit Regroups, is destroyed or leaves the table. - Default Fall Back move is 2D6" unless specified otherwise. Ignores Difficult Terrain but Dangerous Terrain tests are taken as normal. - The Fall-Back move must be directly towards the owning players table edge by the shortest distance possible. - If the unit cannot perform a full Fall Back move in any direction, without doubling back it is destroyed. - If 1 model from the unit reaches the board edge the entire unit is removed. - Units that are falling back can only fire Snap Shots, may not make Reactions or Charges and automatically fail Morale checks.	
Assault:	
- If falling back from Assault, models may move freely through enemy models in the combat but must end 1" away. Extend the distance until all models are clear. - If a unit is Charged whilst falling back, it must pass a Regroup test. If passed the unit may fight as normal and even make Reactions to the Charge. - If the Regroup test is failed, move the Charging unit as normal but then the unit that has been Charged is removed at the end of the Charge sub-phase if the Charge was successful. - In the case of a multi-assault, if the Secondary target(s) are Falling Back and they fail their Regroup test, the unit is destroyed and the charging unit continues its Charge against the Primary target. If passed the unit may fight and make Reactions as normal.	
Regrouping:	
- Before unit moves in Movement phase, unit must attempt to Regroup. - Must pass LD Check or continue to Fall Back. - If LD is passed the unit may move up to its Initiative value. Must try to restore unit coherency. - This move is unaffected by Terrain but Dangerous Terrain tests are taken as normal. - Regrouped units cannot Move, Run or Charge and may only Fire Snap Shots. - The unit may however make Reactions as normal, including those that allow it to move.	

SHOOTING PHASE

Shooting Steps	
1	Active player nominates a unit to shoot:
2	Choose a target Active player may check ranges before picking a target.
3	Select a weapon All models with the same weapon fire at the same time.
4	Check range Each model that wants to shoot must be in range of a visible model in the target unit.
5	Roll to Hit – consult chart
6	Roll to Wound – consult chart
7	Divide into Wound Pools - Any Wounds with different strengths, AP or special rules that affect Saving Throws or Wounds they inflict must be divided into Wound pools. - The owner of the unit that is being attacked decides the order of which Wound pool to resolve first.
8	Allocate Wounds - All the Wounds from a single pool must be allocated to a model in range/LOS and resolved before moving onto the next Wound pool. - Select 1 model to resolve the Wounds from one of the Wound pools. - The model may take a Saving Throw. - If reduced to 0 Wounds, remove the model. - If the model is removed before the Wound pool has emptied, resolve the remaining Wounds on a new engaged model until it is removed or the Wound Pool is empty. - Repeat above process until all Wound pools are empty or all models have been removed. - If no models are in range/LOS of the attacking unit, all remaining Wounds are lost. - Wounded models must be allocated attacks from a Wound Pool first unless they also have the Character sub-type.
9	Roll to save
10	Allocate the next wound
11	Select another weapon
12	Reactions Reactive player may choose to make the Return Fire or Evade Reaction before any models are removed or Damage Mitigation rolls made.
13	Remove models from target unit
14	Choose another unit to shoot - At end of the phase any units that have lost 25% of their models must take a Morale Check. - Once all units have shot, proceed to Assault phase.

Shooting To Hit Roll chart (p168)						
BS	1	2	3	4	5	
To Hit	6+	5+	4+	3+	2+	
BS6+: If model misses, may re-roll the Hit as per below;						
BS	6	7	8	9	10	
To Hit	6+	5+	4+	3+	2+	

To wound chart (p170)											
		Target's Toughness									
		1	2	3	4	5	6	7	8	9	10
Attacker's Strength	1	4+	5+	6+	6+	-	-	-	-	-	-
	2	3+	4+	5+	6+	6+	-	-	-	-	-
	3	2+	3+	4+	5+	6+	6+	-	-	-	-
	4	2+	2+	3+	4+	5+	6+	6+	-	-	-
	5	2+	2+	2+	3+	4+	5+	6+	6+	-	-
	6	2+	2+	2+	2+	3+	4+	5+	6+	6+	-
	7	2+	2+	2+	2+	2+	3+	4+	5+	6+	6+
	8	2+	2+	2+	2+	2+	2+	3+	4+	5+	6+
	9	2+	2+	2+	2+	2+	2+	2+	3+	4+	5+
	10	2+	2+	2+	2+	2+	2+	2+	2+	3+	4+

Weapon Types (p176)	
Ordnance	- Non-Vehicle models may not fire if they moved in the Movement phase. - May not make snap shots. - Roll 2D6 pick the highest for armour pen.
Pistol	- Counts as a close combat weapon. - Gunslinger: Any model armed with 2 pistols may fire both simultaneously.
Rapid Fire	Fires 2 shots at half weapon's max range.
Assault	May move and fire and Charge.
Heavy	- If moved, fires as Snap Shots. - May not Charge after firing.
Destroyer	- Roll 3D6 for armour penetration, pick 2 highest D6 and add together. - Each Glancing/Penetrating hit inflicts D3 HP of damage. - Each wound inflicts D3 wounds.
Bombs	- One Use special rule. - Must be used in Movement phase. - May only attack with 1 bomb type weapon in the Movement phase, which count as using 1 weapon in the ensuing Shooting phase. - May choose a different target to the bombed unit. - Flying must be zooming, 1 unit it passes may be bombed, place the blast marker over target and scatter 1D6.

Movement & Firing (p179)		
Weapon	Effect of moving	May Charge
Assault	No effect	Yes
Heavy	Fired as Snap Shots	No
Ordnance	Cannot Shoot	No
Pistol	No effect	Yes
Rapid Fire	No effect	No
Destroyer	No effect	Yes

Snap Shots (p169)	
- Resolved at BS1 unless a special rule specifically states that it modifies Snap Shots e.g. The Primarch Unit Type. - Blasts and Ordnance weapons may never fire Snap Shots. - Snap Shots may never use the Precision Shot (X) special rule.	

Instant Death (p172)	
If wound caused has a strength value of double the target's toughness the wound causes Instant Death and any unsaved wounds reduce the target model to 0 wounds.	

Pinned Units (p174)	
A pinned unit may not:	
- Move, Run, Charge or make Reactions and can only make Snap Shots. - If a Pinned unit is assaulted it will fight as normal but enemy units do not suffer penalty for charging through Terrain. - If a unit becomes Pinned during a Charge, the charge automatically fails and the Pinned unit does not make a Charge or Surge Move.	

Weapon Special Rules (p234)	
Blast	- To Hit, place 3" Blast Marker with the hole over the target model's base/hull, within range and LOS. - Blast scatters 2D6" minus BS of firer. - Models fully or partially under the marker are hit, even if out of LOS. - Cannot be Snap Shots. Twin-Linked: If a Hit is not rolled, may choose to reroll BOTH scatter dice + 2D6.
Large Blast	– use 5" marker.
Massive Blast	– use 7" marker.
Apocalyptic Blast	– use 10" marker.
Apocalyptic Megablast	– use 10" marker with different str/AP depending on zone – see page 235.
Barrage	- Resolved as per blasts but cover is determined from the centre of the marker. - Vehicle hits resolved against side armour. - May fire indirectly at targets out of LOS but will scatter full 2D6 not minus BS.
Template	- Place the template to cover as many enemy models in target unit as possible. - May not cover any friendly models (including from the same unit). - Firing model never hits itself. Wall of Death: - If fired as a snap-shot against a non-flyer unit, it automatically inflicts D3 hits. Ignores Cover: No Cover/Shrouded Saves allowed vs wounds / hull point damage. Twin-Linked: If weapon is twin-linked must re-roll all failed To Wound and Armour Penetration rolls. Hellstorm: Resolved as template but Wall of Death inflicts D6 hits instead.
Torrent (X)	- Resolved as a template but narrow end may be placed up to the range in brackets (X). - Wide end of template cannot be closer to firing model than narrow end.

Types of Saving Rolls (p173)	
Armour Saves:	Is ignored by any weapon with an AP equal or lower than the value.
Invulnerable Saves:	May always be taken, unless specified otherwise.
Cover Saves:	- May be taken regardless of a weapon's AP. - May not be taken against wounds in Assault or against weapons with the Ignores Cover rule.
Obscured:	- Model must be 25% obscured from point of view of firing model of if model occupies Area Terrain. - Unless otherwise stated grants a 6+ cover save.
Intervening Models:	Grants a 6+ cover save.
Damage Mitigation Rolls:	- May be made even after a model has failed a save of any kind. - Only 1 damage mitigation roll may be made. Feel No Pain (X) – see special rules page. Shrouded (X) – see special rules page.

ASSAULT PHASE

Charge Sub-phase (p180)

0	1. Unit may not charge if: 2. Unit has already charged in this phase and is locked in combat. 3. Unit is pinned. 4. Unit fired Rapid Fire, Heavy or Ordnance weapons.
1	Active player nominates a unit to Charge: 5. May not declare a Charge against a unit more than 12" away or out of LOS. 6. If unit fired in Shooting phase it may only Charge the unit it shot at. If Shooting destroys a Transport, a Charge may be declared against passengers.
2	Roll Charge range: 1. Roll 2D6". 2. Max charge – 12" Min charge – 2". 3. Fleet (X) increases charge by value in brackets. 4. -2 to charge if moving through Difficult Terrain 5. Must still take DGT test if applicable.
2.1	If Unit is Falling Back: 1. If the unit is Falling Back, it must pass a Regroup Check 2. If Regroup is Failed the unit is removed at the end of the Charge Sub-phase. 3. If passed the enemy unit may fight as normal and even make Reactions.
3	Reactions: 1. Reactive Player may make an Overwatch or Hold the Line Reaction, before enemy models are moved.
4	Surge Move: 1. If the Charge range is not enough to move a model into base contact the Charge fails. 2. Unit must move half the distance of the Charge roll. 3. Move 1 model directly forwards the rest are then moved but must maintain coherency.
5	Move initial model: 1. Move the closest Charging model first into the nearest enemy model by the shortest possible distance. 2. If initial Charger is removed by DGT, pick another model.
6	Move rest of the unit: 1. A Charging model must end in coherency with a model in the same unit. 2. If possible, must move into base contact with an unengaged enemy. 3. ELSE, then in contact with an engaged enemy as close as possible to an engaged friendly model. 4. ELSE, then in coherency with engaged friend. 5. ELSE, then must stay within coherency.
7	Choose another Charging unit: 1. Once all units have Charged, proceed to Fight sub-phase.

Fight Sub-phase (p184)

1	Active player nominates a combat to resolve:
2	Issue Challenges (See Characters section)
3	Choose highest Initiative step: 1. Start from 10 and work down. 2. Skip a step if no models with that initiative. 3. All models charging through DT strike at I1, unless charging a Pinned/Locked unit.
4	Pile In: 1. Models in this Initiative step pile in 3". 2. First models pile in to get into base contact. 3. THEN models pile in to get within coherency of an engaged model. 4. THEN all other models pile in. 5. Active player piles in first. 6. Any model in base contact or within unit coherency* of an engaged model can fight. *If unit is in Terrain with multiple levels, models within 6" on another level count as being in coherency. (p165)
5	Determine number of Attacks: 1. Models in this initiative step may attack. ♦ +1 attack for charging. ♦ +1 attack for 2 Melee/Pistol Weapons. ♦ Select 1 weapon to attack with.
6	Roll to Hit – consult chart Use majority WS of target unit, if equal, use highest value.
7	Roll to Wound – consult chart 1. Use majority T of target unit, if equal, use highest value.
8	Divide into Wound Pools 1. Any wounds with different Strengths, AP or special rules that affect Saving Throws or Wounds they inflict must be divided into wound pools. 2. The owner of the unit that is being attacked decides the order of which wound pool to resolve first.
9	Allocate Wounds 1. All the Wounds from a single pool must be allocated to an engaged model and resolved before moving onto the next wound pool. 2. Select 1 model to resolve wounds from one of the pools. 3. The model may take a Saving Throw. 4. If reduced to 0 Wounds, remove the model. 5. If the model is removed before the wound pool has emptied, resolve the remaining Wounds on a new engaged model until it is removed or the Wound Pool is empty. 6. Repeat above process until all wound pools are empty or all models have been removed. 7. If no models are engaged in combat with the attacking unit, all remaining wounds are lost. Wounded models must be allocated attacks from a Wound Pool first unless they also have the Character sub-type.
10	Fight next Initiative step: 1. Once all models have attacked, proceed on to Determining Assault Results.

Determining Assault Results (p188)

1	Determine assault results: 1. Count up the total Wounds caused per side after saves, highest is the winner. 2. If equal number of Wounds, combat is a draw. 3. Wounds caused in excess of a model's wound characteristic do not count but total wounds removed do i.e., from Instant Death. 4. Do not count Wounds caused from failed DGT test and Reactions.
2	Loser takes Morale check: 1. -1 LD for each Wound unit lost the combat by. 2. If check is failed, unit Falls Back. 3. Our Weapons Are Useless: If unit is locked in combat with an enemy it can't hurt, the unit may choose to automatically fail this check.
3	Winner may Sweeping Advance: 1. Both the Unit Falling Back and Winning Unit rolls 1D6 + highest initiative in the unit. 2. If the winner is higher the unit is destroyed. 3. If the Falling back unit rolls higher or equal, they disengage and make a Fall-Back move. 4. Winning units that are still locked in combat cannot make a Sweeping Advance.
4	End of combat Pile In: 1. If combat is still ongoing, all models make a Pile in move. Active player Piles in first.
5	Consolidate: 1. If the winning unit is now unengaged, it may make a Consolidation move (Distance = Highest initiative in unit in inches). 2. Must remain 1" from enemy models. 3. Difficult Terrain has no effect, but take DGT tests as normal. 4. No Consolidation if winning a combat against vehicles or buildings.
6	Choose another combat to resolve and go back to the Fight Sub-Phase.

Locked in Combat (p183)

- If a unit has one or more models in base contact with an enemy model, the unit is locked in combat.
- The unit may not move, Run, shoot or make Reactions.
- Locked models do not take Morale or Pining checks from shooting.

Multiple Combats (p189)

- Multiple Charges:**
- Choose 1 primary target and 1 or more Secondary Targets.
 - If the unit shot, the target of the shooting attack must be the Primary target.
 - A unit declaring this, is making a Disordered Charge, even if it ends up with no models touching the Secondary Targets.
 - Each target unit may make a Reaction.
 - If the Primary Target cannot be reached with the charge roll, the entire charge falls and the unit makes a Surge Move.
 - The "initial charging model" is the closet model to the Primary Target.
 - All other models may be moved to get in base contact with either the Primary or Secondary Targets but must follow the standard rules for moving charging models.
- ♦ **If the Secondary target is a unit Falling Back, the unit must immediately pass a Regroup Check. If it fails the unit is destroyed and the charging unit continues its charge against the Primary target. If passed the unit may fight as normal.**

Charging into a Multiple Combat:

- If charging two or more units already locked, the Initiative penalty for DT does not apply.

Fighting Multiple Combats:

- If a model is engaged with only one enemy unit it must attack that unit.
- If a model is engaged with two or more units it may split its attacks freely between them. Must declare this before rolling to hit.

Assault Results:

- Add up the number of Wounds after saves inflicted per side.
- Every unit on the losing side must take a Morale check with the same penalty to LD.
- If all the losing units fail the check (or have been destroyed), all of the winning units may make a Sweeping Advance.
- The Winning units may not add their Initiative to the Sweeping Advance roll.
- The Falling Back unit may add their Initiative to the Sweeping Advance roll.
- If any of the Winning Unit(s) equal or beat the Falling Back unit's roll they are destroyed.

Charges Distances (p181)

Move Value	Charge Modifier
0	May not Charge
1 – 4	-1
5 – 7	0
8 – 10	1
11 – 12	2
13+	3
Fleet (X)	Increase by value in brackets

Disordered Charges

- A unit does not gain the +1 bonus to their attacks for charging or any other bonus granted by special rules that require a successful charge i.e., Furious Charge USR.

Assault to Hit chart (p186)

		Defender's Weapon Skill									
Attacker's Weapon Skill		1	2	3	4	5	6	7	8	9	10
	1	4+	6+	6+	6+	6+	6+	6+	6+	6+	6+
	2	2+	4+	5+	6+	6+	6+	6+	6+	6+	6+
	3	2+	3+	4+	5+	5+	6+	6+	6+	6+	6+
	4	2+	2+	3+	4+	5+	5+	5+	6+	6+	6+
	5	2+	2+	3+	3+	4+	5+	5+	5+	5+	6+
	6	2+	2+	2+	3+	3+	4+	5+	5+	5+	5+
	7	2+	2+	2+	3+	3+	3+	4+	5+	5+	5+
	8	2+	2+	2+	2+	3+	3+	3+	4+	5+	5+
	9	2+	2+	2+	2+	3+	3+	3+	3+	4+	5+
	10	2+	2+	2+	2+	2+	3+	3+	3+	3+	4+

To Wound chart (p186)

		Target's Toughness									
Attacker's Strength		1	2	3	4	5	6	7	8	9	10
	1	4+	5+	6+	6+	-	-	-	-	-	-
	2	3+	4+	5+	6+	6+	-	-	-	-	-
	3	2+	3+	4+	5+	6+	6+	-	-	-	-
	4	2+	2+	3+	4+	5+	6+	6+	-	-	-
	5	2+	2+	2+	3+	4+	5+	6+	6+	-	-
	6	2+	2+	2+	2+	3+	4+	5+	6+	6+	-
	7	2+	2+	2+	2+	2+	3+	4+	5+	6+	6+
	8	2+	2+	2+	2+	2+	2+	3+	4+	5+	6+
	9	2+	2+	2+	2+	2+	2+	2+	3+	4+	5+
	10	2+	2+	2+	2+	2+	2+	2+	2+	3+	4+

VEHICLES

Movement (p203)

When a vehicle moves, declare speed:

Movement	Distance
Stationary	0" or Pivot
Combat Speed	Equal or half of Movement Value
Cruising Speed	More than half of Movement Value

Difficult Terrain (p203)

- If a vehicle moves through, onto or out of a piece of Difficult and/or Dangerous Terrain, it must take a Dangerous Terrain test. On a 1, it loses 1 HP and becomes immobilised.

Measuring (p202)

- Measure to the vehicle's hull, ignoring gun barrels, dozer blades, banners and other decorative elements.
- When a vehicle fires, range is always measured from the end of the weapon firing.

Vehicle Specific Weapons (p206)

Battle Weapon:

- Any weapon with a Strength of 7+.

Defensive Weapon:

- Any weapon with a Strength of 6 or below. May always be fired at the closest Infantry unit in LOS and Firing Arc, even if Vehicles other weapons have targeted a different unit.

Co-Axial Mounted Weapon:

- Attached to a turret, fire first.
- If a hit is scored, main turret weapon may re-roll any failed to hit rolls.

Movement & Firing (p205)

Type or Sub-type	Distance	No. Weapons	Battle	Defensive	Ordnance or Destroyer
Vehicle	Stationary	All	Yes	Yes	Yes
Vehicle	Combat Speed	All	Yes	Yes	1 - all other weapons fire as Snap Shots
Vehicle	Cruising Speed	1 - all other weapons fire as Snap Shots	Yes	Yes	No
Sub-types					
Type or Sub-type	Distance	Number of Weapons	Battle	Defensive	Ordnance or Destroyer
Fast	Any distance	Count as Combat Speed no matter how far model moved			
Slow	Any distance	Count as Cruising Speed no matter how far model moved			
Bombard	Combat Speed	All	Yes	Yes	Yes
Bombard	Cruising Speed	1 Defensive weapon	No	Yes	No
Flyer	Any distance	4 Weapons	Yes	Yes	Yes
Knights and Titans	Any distance	All	Yes	Yes	Yes
Super Heavy	Any distance	All	Yes	Yes	Yes

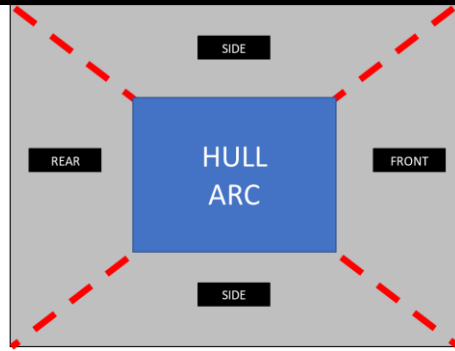

Ramming (p204)

1	1.	Controlling player may declare the Vehicle is going to Ram instead of moving normally.
	2.	If Arriving from Reserves this must be declared before the Vehicles moves onto the table.
2	1.	If Vehicle comes into contact with a model when pivoting prior to the Ram attack, move the Ramming vehicle the minimum distance required to stay 1" from enemy models.
3	1.	Move the Vehicle straight forwards until it touches a unit (friendly or enemy) or reaches the distance declared.
4	1.	If non-Vehicle unit is reached, the unit takes D6 hits AP- with a Str equal to half the front AV of the vehicle.
		• If a Super Heavy the Str of the attack is 10 and Hits 2D6.
		• If unit contacted was a Vehicle or Building, both the Ramming Vehicle and target unit take 1 hit equal to half the value of the AV facing in contact with the Vehicle/Building.
		• If the Ramming Vehicle has higher starting HP than target resolve the hit with +1 str.
		• If the Ramming unit is a Super Heavy, has the Slow sub-type or is a Building add +4 to the Str of the attack.
5	1.	Reactive Player may make a Death or Glory Advanced Reaction before the Ramming Vehicle is moved.
6	1.	Once hits are resolved, the Rammed unit takes a Morale check and immediately Falls Back if it fails.
X	Restrictions: - If a unit is Rammed whilst already Falling Back it automatically fails the Morale check and Falls Back again. - Units cannot Embark or Disembark in the same Movement phase that a Ram attack occurs. - If the Vehicle chooses to Ram, the vehicle (including any Passengers) may only make Snap Shots in that turn's Shooting phase. - May not Ram units in Combat, if its move brings it into contact with a unit locked in combat, the vehicle stops 1" away.	

Vehicle Weapon Mountings (p205/6)

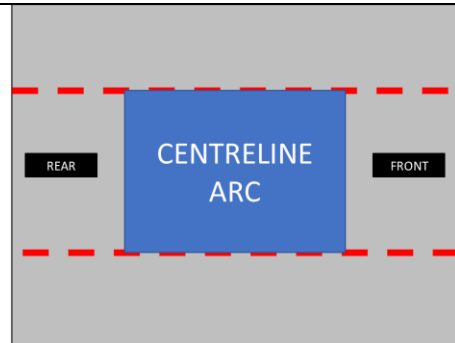

Hull (Arc) Mounted:

- May fire into the arc specified in the brackets.

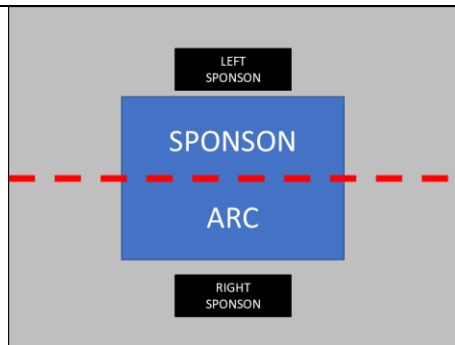

Centreline Mounted:

- Draw 2 lines down the sides of the vehicle's hull, space between the lines is the centreline arc.

Sponson Mounted:

- Draw line down centre of vehicle, left hand side is left sponson, right hand side is right sponson.
- Sponson may fire into arc they are mounted.
- If 1 sponson weapon of the pair cannot aim at the primary target, a secondary target may be selected that is within the weapon's LOS which cannot draw LOS to the Primary target.

Pintle Mounted:

- May fire in any arc, front, side or rear.
- Always counts as a Defensive Weapon.

Turret Mounted:

- May fire in any arc, front, side or rear.

Vehicles in Assault (p210)

- All Vehicles are treated as WS1.
- Immobilised Vehicles are treated as WS0.
- All hits in Assault are resolved against Rear AV.
- Vehicles cannot Charge, Pile In, Consolidate, Sweeping Advance or be Locked in Combat.
- For purpose of Combat Resolution, a Glancing Hit is counted as 1 wound and a Penetrating Hit is counted as 2 wounds.
- If Vehicle loses combat/is destroyed, Winners may not Sweeping Advance, Pile In or Consolidate.
- Vehicles will never take Morale or Leadership tests.
- Units that are still in base contact with a Vehicle during the Assault Phase may attack again as if it was locked in combat (unless the Vehicle moves away).

Squadrons (p211)

Movement Phase:

- Must remain within 4" coherency of each other.
- May move at different speeds.

Abandoning Squadron-Mates:

- If 1 or more vehicles in squadron have been Immobilised, may Abandon Immobilised Vehicle by moving out of coherency.
- The Abandoned Vehicle counts as a separate unit from then for all rules and victory conditions.

Shooting Phase:

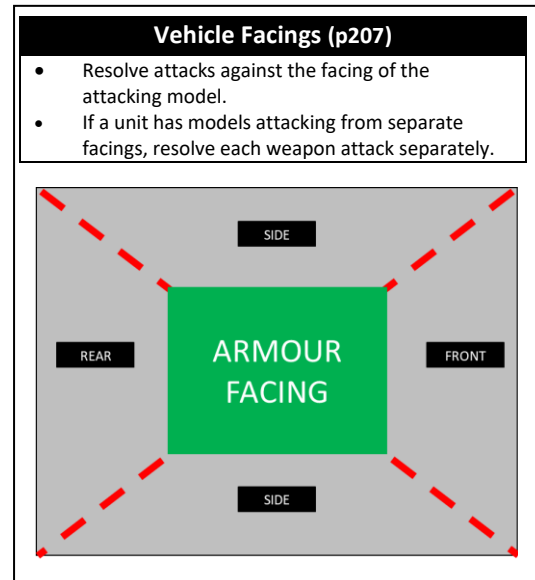

- Squadrons may shoot through other vehicles in the same squadron.

Damage:

- Resolve damage 1 hit at a time, allocated by the controlling player so long as vehicle is within LOS and range of attacking unit.
- If unit is comprised of Vehicles that have already lost HP, must allocate hits to damage Vehicle first but only if can draw LOS and range to attacking unit.

VEHICLES

Armour Penetration (p207)		
- Roll to penetrate Vehicle armour rather than Wound. - Roll 1D6 + Strength of the weapon and consult chart below.		
Roll	Damage	Effect
Less than AV	No Damage	N/A
Equal to AV	Glancing Hit	Vehicles loses 1 HP
Greater than AV	Penetrating Hit	Vehicles loses 1 HP + roll on Vehicle Damage Table
- Blast and Template weapons hit the AV facing of the attacking model. - If weapon has Barrage/ attacks indirectly / does not require LOS it hits side AV.		
Superior AP Weapons		
- If attack is AP2 add +1 to the Vehicle Damage roll. - If attack is AP1 add +2 to the Vehicle Damage roll.		

Vehicle Damage Table (p208)				
Type	Roll	Result	Effect	Passenger effects (if a Transport)
Vehicle	1-3	Crew Shaken	Fire Snap Shots until end of its next turn.	- At the end of the phase in which the damage was inflicted, the Transported unit must take a Leadership test. - If failed the unit may only make Snap Shots in its next Shooting phase.
Vehicle	4	Crew Stunned	Fire Snap Shots, and may not move/pivot until end of its next turn.	As Crew Shaken.
Vehicle	5	Weapon Destroyed	Controlling player picks a Battle weapon to be destroyed. If no Battle Weapons, pick a Defensive Weapon to be destroyed. If all weapons destroyed, treat as Immobilised.	As Crew Shaken.
Vehicle	6	Immobilised	May not move for rest of the game or pivot. If already immobilised, suffer an additional HP of damage.	As Crew Shaken.
Vehicle	7+	Explodes	All models within D6" take a STR8 AP- hit. Any units hit must take a Pinning Test., then remove the Vehicle.	- Each model takes a Str8 AP- hit, wounds allocated by controlling player. - Surviving unit is placed where the Vehicle used to be. Any models that cannot be placed are removed. The unit then takes a Pinning test.
Vehicle	Reduced to 0 HP	Wrecked	Vehicle counts as destroyed but left in place and counts as Terrain.	- Unit must immediately Disembark half the distance of their Movement value. - Any models that cannot be placed are removed. The unit then takes a Pinning test.
Non-Standard Vehicle Damage Table				
Type	Roll	Result	Effect	If Transport, Passenger effects
Super Heavy Vehicle	Reduced to 0 HP	Catastrophic Damage	All models within 6+D6" take a STR7+d3 AP4 hit. Any units hit must take a Pinning Test. Then remove the Vehicle.	- Each model takes a Str10 AP3 hit, wounds allocated by controlling player. - Surviving units placed where the Vehicle used to be. Any models that cannot be placed are removed. Any Surviving units take a Pinning test.
Lumbering Flyer	Reduced to 0 HP	Catastrophic Damage	All models within 6+D6" take a STR10 AP3 hit. Then remove the Vehicle.	- Each model takes a Str10 AP3 hit, wounds allocated by controlling player. - Surviving units placed where the Vehicle used to be. Any models that cannot be placed are removed. Any Surviving units take a Pinning test.
Knight / Titan	Reduced to 0 HP	Catastrophic Damage	All models within 6+D6" take a STR7+d3 AP4 hit. Any units hit must take a Pinning Test. Then remove the Knight/Titan.	N/A
Flyer (Zooming)	4	Crew Stunned	Fire Snap Shots until end of its next turn and must move 18" and cannot turn.	As Crew Shaken.
Flyer (Zooming)	6	Immobilised	Roll 1D6 on 1 or 2 Flyer Crash and Burns, on a 3+ apply Crew Stunned result.	As Crew Shaken.
Flyer (Zooming)	7+ OR Reduced to 0 HP	Explodes OR Wrecked	Crash and Burn: Place Large Blast (5") over Flyer then scatter 2D6". Any models under Blast suffer STR8 AP- hits, then remove the Vehicle.	- Each model takes a Str10 AP2 hit, wounds allocated by controlling player. - Surviving units must take a Pinning test. - Surviving units are placed where the Vehicle used to be. Any models that cannot be placed are removed.

TRANSPORT VEHICLES

Transport – Vehicle Sub-Type (p211)

Disembarking

1. A unit can Disembark before or after the Vehicle transporting it has moved so long as it has not moved at **Cruising Speed**.
2. If the Vehicle moved before its Passengers Disembarked it cannot move further that turn (including to pivot).
3. If Vehicle did not move, it may move after Passengers have Disembarked.
4. A Vehicle cannot Ram in the turn that a unit Disembarks.
5. To Disembark place any models within their Movement Value of an Access Point.

Restrictions:

- A unit cannot charge in the turn it disembarks, even if the Vehicle was destroyed, unless the Vehicle has the Assault Vehicle special rule.

Embarking

1. A unit can embark but must move every model within 2" of an Access point.
2. The whole unit must be able to embark, if any models cannot Embark the entire unit must stay outside.
3. If the Vehicle moved before its Passengers Embarked it cannot move further that turn (including to pivot).
4. If Vehicle did not move, it may move after Passengers have Embarked.
5. A Vehicle cannot Ram in the turn that a unit Embarks.

Emergency Disembarkation

- If any models cannot Disembark due to Impassable Terrain or enemy models being within 1" they may perform an Emergency Disembarkation.
- In this case, a model is placed anywhere in contact with the Vehicle's hull (but not on top of the vehicle) and then may make a normal disembark move.
- If the unit completes an Emergency Disembarkation, it cannot make any voluntary actions for the rest of the turn.
- If the above Disembarkation isn't possible, the unit cannot Disembark. **(This will often mean the unit is destroyed).**

Embarking & Disembarking

Access Points:

- Units may only Embark/Disembark via access points.
- A unit may only Embark OR Disembark 1 Transport vehicle in the same turn.

Independent Characters

- May Embark/Disembark separately.
- Automatically join the Embarked unit if they Embark the same vehicle.

Capacity

- Vehicle may carry number of models equal to its transport capacity.
- May only transport Infantry / Independent Character and Primarch models unless a special rule allows otherwise.
- Bulky (X) models may not be transported unless a special rule allows otherwise.
- Only 1 Unit may be transported at a time, unless it has the Super Heavy sub-type.

Dedicated Transport Vehicle

- When deployed, must contain the unit it was purchased for. After game begins may transport any friendly units during course of the game.
- Does not use up a FOC slot.

FORTIFICATIONS & BUILDINGS

Fortifications (p223)

General:

- Units may Embark/Disembark buildings using the rules for a Transport vehicle.
- Units with Jetpacks/Jump Packs may embark inside Fortifications that are Buildings.
- Buildings may never move.

Damage:

- Buildings have AV values, for each Glancing/Penetrating Hit they suffer they lose 1 HP.
- Each Penetrating Hit must also roll on the Building Damage Table.
- Buildings are hit automatically in close combat.

Claiming Fortifications:

- At game start all fortifications purchased by a player count as Claimed by that player.
- Building counts as claimed even if it became unoccupied by the player that purchased it.
- Fortifications may be claimed by an enemy unit that embarks into the building, in which case it becomes part of that player's army until it is destroyed or an enemy unit re-occupies it and reclaims the building to their side.
- If a unit moves onto the Battlements of an unclaimed building, they may immediately claim it for their side until an enemy unit occupies it or is destroyed.
- Once a building has been claimed it may be attacked by the opposing side with shooting or close combat attacks. A building or fortification which does not have an AV or toughness value may not be attacked.

Battlements (p225)

Battlements:

- Treat Battlements as a separate piece of Terrain.
- Battlements are connected to the building by an access point.
- Units equipped with Jump Packs, Jetpacks, Cavalry Units and Skimmers do not take Dangerous Terrain checks for starting or ending their move on battlements.
- If a unit on the battlements is hit by a template or blast weapon the building also suffers a single hit for each blast/template.

Weapon Emplacements:

- An Emplacement mounted Weapon may fire into any arc.
- May only be fired by a model that currently claims the building and is either embarked or in base contact with the Weapon.
- Use model's BS to fire rather than BS of the Fortification.

Fire Points:

- Embarked models may fire from a fire point.
- Each Fire Point allows 2 embarked models to fire out of the building in the arc described in the Fire Point and measure range and LOS from the location on the model.

Repel The Enemy:

- Any occupants disembarking from a building may Charge on the turn they do so, even if the building is destroyed.

Building Capacity (p224)

Size	Hull Points	Transport Capacity
Small	4	6
Medium	6	12
Large	8	20

Building Damage Table (p226)

Roll	Result	Effects	Hits
1-3	Building Shaken	Building and Embarked Units may only fire Snap Shots until end of their next turn.	N/A
4	Structural Tremor	Building and Embarked Units may only fire Snap Shots until end of their next turn.	Embarked unit takes 1D6 Str 6 AP- Hits with the Ignores Cover special rule.
5	Weapon Destroyed	One of the Building's Weapons, chosen by the controlling player is destroyed. If no Weapons treat as Catastrophic Breach instead.	N/A
6	Catastrophic Breach	Building and Embarked Units may not fire until end of their next turn. No units may Embark or Disembark.	Embarked unit takes 2D6 Str 6 AP- Hits with the Ignores Cover special rule.
7+ OR Reduced to 0 HP	Total Collapse	Building is Destroyed. Any units on Battlements must move 6" in order to move off the Battlements. Any models that cannot move off are removed. Any Embarked units must Disembark. Any models that cannot disembark are removed. Destroyed building is replaced with an area of Ruins or a Crater of roughly the same size.	Any units on the Battlements take 2D6 Str 6 AP- Hits with the Ignores Cover special rule. Embarked unit takes 4D6 Str 6 AP- Hits with Ignores Cover special rule and then takes a Pinning check once it has Disembarked.

Wound Allocation & Embarked Units

- Any wounds that are allocated to an Embarked unit as a result of Hits from the Damage Table are allocated by the embarked unit's controlling player.

Superior AP Weapons

- If attack is AP2 add +1 to the building damage roll.
- If attack is AP1 add +2 to the building damage roll.

Victory Conditions

- Buildings are not counted for purposes of Victory points or determining if opposing player is "Wiped out".

UNIT TYPES & SUB-TYPES

UNIT TYPES

Infantry: Unit Type (p195)

General:

- May only include or be joined by models with the Infantry or Primarch Unit Type.

Cavalry: Unit Type (p195)

Movement:

- Not slowed by Difficult Terrain, even when charging.
- Treat all Terrain as Dangerous Terrain.
- Fall back 3D6.

Shooting:

- Cannot be pinned.

General:

- May only be joined by models of the Cavalry Unit Type.

Automata: Unit Type (p195)

General:

- Successful Poisoned and Fleshbane wounds must be re-rolled.
- May not make Reactions.
- May not be joined by any model without the automata Unit Type.

Special rules:

- Fearless.

Dreadnought: Unit Type (p195)

Shooting:

- May fire all weapons, even as part of a Reaction.

General:

- Successful Poisoned and Fleshbane wounds must be re-rolled.
- May not be joined by any model without the dreadnought Unit Type.

Special rules:

- Fearless, Relentless.

Daemon: Unit Type (p196)

General:

- Strength & Toughness modified, as below:
 - Turn 1&2: +1
 - Turn 3&4: +0
 - Turn 5&6: -1
 - Turn 7+: -2
- Any wounds with a Force weapon cause Instant Death.
- Immune to Fear.
- Auto pass Pinning/ Regroup checks.
- Cannot use "Our Weapons are Useless".
- If fail a Morale check suffer D3 wounds with no saves.
- May not be joined by any model without the Daemon Unit Type.

Special rules:

- Fear.

Primarch: Unit Type (p196)

General:

- All attacks (shooting or combat) are allocated by the controlling player.
- Characteristics may never be negatively modified (except Wounds).
- Fire Snap Shots at full BS.
- Must be the army's Warlord.

Special rules:

- Independent Character, Eternal Warrior, Fearless, It Will Not Die (5+), Bulky (4), Relentless, Character.

UNIT SUB-TYPES

Line: Sub-type (p196)

- Counts as a Scoring and Denial unit.

Anti-Grav: Sub-type (p196)

Movement:

- Ignore the effects of any and all Terrain it moves over.
- May move over vertical & Impassable Terrain.
- May not begin or end the move in Impassable Terrain.
- If beginning or ending move in Dangerous Terrain must take a DGT.

General:

- May not take cover saves of any kind.

Artillery: Sub-type (p197)

Movement:

- May not Run.

Assault:

- May not declare Charges.
- Auto fail Sweeping Advances.

General:

- May not make Reactions.
- May not hold or deny objectives.
- If unit does not contain any models with the Artillery sub-type, then all models in the unit are destroyed immediately.

Monstrous: Sub-type (p197)

Shooting:

- May fire all weapons, even as part of a Reaction.

General:

- Cannot be Pinned.
- May not be joined by any model without the Monstrous unit sub-type.

Special rules:

- Relentless.

Heavy: Sub-type (197)

Movement:

- May not Run.
- Movement is -1 when moving as part of a Reaction.

General:

- If all models in unit are Heavy, they may re-roll failed Armour Saves vs Blasts & Templates.

Light: Sub-type (p197)

Movement:

- Gain +1 to initiative when determining how far model can Run + move as part of a Reaction.

Shooting:

- May fire Snap Shots after unit has Run.
- May not claim a cover save in same turn as making a run move.

Skirmish: Sub-type (p95*)

Movement & Assault:

- 3" unit coherency.

General:

- +1 to cover save when in area Terrain.

*Found in the *Liber Hereticus/Astartes*.

Unique: Sub-type (p95*)

General:

- Army can only include 1 of this unit.
- May not select any options other than those on its profile.

*Found in the *Liber Hereticus/Astartes*.

VEHICLE SUB-TYPES

Bombard: Sub-type (p95*)

Movement:

- When moving at Combat speed may fire any number of Ordnance weapons + non-Ordnance weapons.
- When moving at Cruising speed may only fire 1 Defensive weapon.

*Found in the *Liber Hereticus/Astartes*.

Reinforced: Sub-type (p95*)

Damage:

- Ignores the effects of Crew Shaken.
- Can fire at full BS when Crew Stunned but cannot move.

*Found in the *Liber Hereticus/Astartes*.

Fast: Sub-type (p214)

Movement:

- Always counts as moving at Combat speed if it moves.

Special rules:

- **Flat-Out:** May move twice its Movement characteristic.
- Roll 1D6, on a 1 suffer glancing hit + crew stunned.
- May only fire Snap Shots.

Slow: Sub-type (p214)

Movement:

- Always counts as moving at Cruising speed if it moves.

Damage:

- Roll 2D6 on Vehicle damage table and discard highest D6 when damaged.

Skimmer: Sub-type (p214)

Movement:

- May move over friendly or enemy models but cannot end their move over either. If forced to, move it the minimum distance out of the way.
- May move over models and Terrain freely, but takes a DGT if begins or ends in Difficult/Dangerous Terrain.

Measuring:

- The base of a Skimmer is ignored unless it is being Charged or Rammed, in which case models may move in contact with its hull, its base, or both.

Damage:

- If Skimmer is immobilised or wrecked, remove the base if possible.

Hover: Sub-type (p219)

Movement:

- If a Flyer, may choose to use Hover instead of Zooming.
- When Transport Flyer uses Hover passengers may Embark and Disembark.
- Must declare if Zooming or Hover before model moves and before models disembark each Movement phase.
- If arriving from Reserves, declare mode before being placed.
- If in a Squadron all vehicles must choose Hover or Zoom.
- May move as a Skimmer sub-type when Hovering.

Damage:

- An immobilised Flyer in Hover mode cannot Switch to Zoom mode.

VEHICLE SUB-TYPES

Knights and Titans: Sub-type (p216)

Measuring:

- If model has a base, measure to base. If model does not, measure to the hull, except for when firing its weapons.

Movement:

- Ignore Difficult and Dangerous Terrain but may not end its move in Impassable Terrain.
- May move over enemy Infantry and Cavalry types but may not finish their movement within 1" of a model.
- May not Run.
- May not make Ram Attacks.
- If rammed, enemy vehicle always takes hits at Str10 and inflicts D3 HP of damage. If Knight or Titan survives the Ram, may attack the vehicle in the Assault phase.

Shooting:

- Always count as stationary, may fire Ordnance weapons with no effect on firing other weapons.
- May fire all weapons at different targets (must declare all targets before firing).
- **Arm Mounted Weapon Arc:** May fire in any Firing Arc, except the Hull (Rear). Count as Defensive weapons.
- **Carapace Mounted Weapon Arc:** May fire in any arc but may not target models within 12" of firing model.

Assault:

- May declare Charges.
- Cannot be locked in combat.
- Any hits are resolved against its Front AV.
- Gains +1 attack for each Melee weapon after the first
- In addition to normal attacks may make;

Stomp Attacks:

- Makes D3+unmodified Attack characteristic attacks, Resolved at initiative 1, AP2 with the model's unmodified WS and STR.
- May not make **Stomp Attacks** against Super Heavy Vehicles, Lumbering Flyers, Knights and Titans or any model with 8+ wounds.
- May not Sweeping Advances, Pile-in Moves or Consolidations.

Damage:

- Any effects from Shaken, Stunned, Immobilised or Weapon Destroyed have no effect but lose HP as normal.
- If suffer an explodes result, lose D3 HP instead.
- Effects which permanently lower AV have no effect.
- **Catastrophic Damage:** When loses final HP, it explodes. Every model within 6+D6 measured from the hull takes a str7+d3 AP4 hit. Any units hit must immediately take a Pinning test.

Reactions:

- May only make Reactions in response to – Super Heavy Vehicles, Lumbering Flyers, Knights and Titans or any model with 8+ wounds.
- May not perform **Death or Glory** Reactions.

Super Heavy Vehicle: Sub-type (p215)

Movement:

- Ignore Difficult and Dangerous Terrain but may not end its move in Impassable Terrain.
- If a Transport, may carry multiple units.

Shooting:

- Always count as stationary, may fire Ordnance weapons with no effect on firing other weapons.
- May fire all weapons at different targets (must declare all targets before firing).

Damage:

- Any effects from Shaken, Stunned, Immobilised or Weapon Destroyed have no effect but lose HP as normal.
- If suffer an explodes result, lose d3 HP instead.
- Effects which permanently lower AV have no effect.
- **Catastrophic Damage:** When loses final HP, it explodes. Every model within 6+D6 measured from the hull takes a str7+D3 AP4 hit. Any units hit must immediately take a Pinning test.

Reactions:

- May only make Reactions in response to – Super Heavy Vehicles, Lumbering Flyers, Knights and Titans or any model with 8+ wounds.

Flyer: Sub-type (p218)

Flight Mode:

- Must **Zoom** unless it has the Hover Sub-type.
- Declare mode before moving, models disembarking or arriving from reserves.

Measuring:

- Always measure to the model's hull, ignore the base, except when firing weapons.
- Models Embarking/Disembarking use the base as the access point.
- The base of a Flyer is ignored unless it is being Charged in which case models may move in contact with its hull/base, or both.

Movement:

- **Zoom:** Can move up to x2 its Movement value. If forced to move less than its Movement value, it is Wrecked.
- May make a single 90° pivot at the start.
- May move over all Terrain, never takes DGT.
- Models that can fit can move under it, and vice versa, but bases must always stay 1" apart.
- May never Ram or be Rammed whilst Zooming.

Leaving Combat Airspace:

- Zooming flyers may leave the board and go into Reserves. When it arrives back it must be Zooming (even if it has Hover Sub-type) Cannot do this on the turn it arrives.

Shooting:

- May fire up to 4 weapons using full BS.
- Declare at start of Shooting phase if all weapons will gain Skyfire.
- Enemy attacks resolved as Snap Shots when Zooming.

Assault:

- Can never be Charged whilst zooming.

Special Rules:

- Must begin the game in reserves.
- May only be repaired by an embarked unit.

Reactions:

- Does not trigger movement Reactions.
- May only make the **Evade** Reaction.

Lumbering: Sub-type (p219)

Damage:

- Any effects from Shaken, Stunned, Immobilised or Weapon Destroyed have no effect but lose HP as normal.
- If suffer an explodes result, lose d3 HP instead.
- Effects which permanently lower AV have no effect.
- **Catastrophic Damage:** When last HP is lost, model explodes. Every model within 6+D6 measured from the hull takes a str10 AP3 hit.

SPECIAL RULES (p231)

Rule	Effect
Conferring: Special rules that are marked with a (C) are conferred to the rest of the unit so long as 1 model in the unit has this special rule.	
Adamantium Will (X+)	- Model gains an Invulnerable Save equal to the value in brackets against any wounds inflicted by Perils of the Warp or by weapons with the Force or Psychic Focus special rules. Default value 5+.
Armourbane (X) (Melta) (Melee) (Range)	- (X) Model rolls an additional 1D6 for armour penetration when targeting a Vehicle model. May re-roll failed wounds when targeting an Automata or Dreadnought Unit Type. These effects apply to both shooting and close combat attacks. Some instances of Armourbane have qualifiers; see below. - (Melta) Model/Weapon only gains benefits of Armourbane when in half range. If a blast measure ranges the from centre of the marker after scatter. - (Melee) Model/Weapon only gains benefits of Armourbane when attacking in close combat. - (Range) Model/Weapon only gains benefits of Armourbane when making shooting attacks.
Assault Vehicle	- Passengers disembarking from Access Points may charge on the turn they do so. Including when forced to make an Emergency Disembarkation). - Passengers may not charge if the Vehicle arrived from Reserves.
Barrage	- May fire a weapon without needing LOS as long as target is beyond minimum range (if applicable). - Ballistic skill is not subtracted from the 2D6 scatter roll. - Can fire directly at targets if model has LOS (even if in minimum range). - All hits against Vehicles are resolved against the Side Armour Value.
Battlesmith (X+)	- If model is Embarked in a Vehicle or in base contact with a Vehicle, Dreadnought or Automata in the Shooting phase they may attempt to repair instead of firing a weapon. - Roll a D6, if roll is equal or higher than value in brackets then pick from below: - Restore a lost wound / hull point. - Repair a Weapon Destroyed or Immobilised result. - If Weapon is Repaired, it can be fired in the following Shooting phase. - Battlesmith (X) cannot be used if model is Pinned or Falling back.
Battle-Hardened (X)	Increase model's Toughness by value in brackets for purposes of calculating Instant Death. Does not alter any to Wound rolls, test or check.
Blind	- Unit hit by weapon/model with this rule must take an Initiative test at end of the current phase. If failed reduce unit's WS and BS to 1 until end of their next turn. - No effect vs models without an initiative Characteristic i.e., vehicles/buildings.
Bulky (X)	- Model counts as number of models equal to the value in brackets for purpose of calculating Outnumber and Transport Capacity.
Chosen Warriors	- Model may issue and accept Challenges as if it were a Character. - Does not grant the model any other rules associated with the Character sub-type.
Concussive (X)	- If a unit suffers 1 or more Wounds (saved or unsaved) the unit must take a Leadership test at the end of the Shooting phase (if a shooting attack) or the Current Combat (if inflicted in Assault Phase). - If test is failed reduce the unit's WS by the value in brackets until the end of the following Assault Phase. Default value of -1. - Effects are not cumulative, only 1 test is made.
Counter-Attack (X)	- When Charged, any models with this rule gain additional attacks equal to the value in brackets. - No effect if model is already locked in Combat or used Hold the Line Reaction.
Crawling Fire	- After placing a blast marker's final position, the player may move the marker 2" in any direction but this must cover more models than it previously would have.
Crusader (C)	- Roll 1 extra dice when resolving Sweeping Advances and discard the lowest dice.
Cumbersome	- May only make 1 attack in the Assault phase, resolved at WS 1.
Deadly Cargo	- If this model suffers a Glancing or Penetrating Hit, roll a D6 on a 6, it immediately suffers an Explodes result on the Vehicle Damage Table.
Deflagrate	- After normal attacks have been resolved, count number of unsaved Wounds. Immediately resolve number of additional automatic Hits on the same unit using the weapon's profile equal to number of unsaved Wounds. - These additional Wounds do not cause additional Hits and do not benefit from other special rules by the attacking model e.g., Preferred Enemy (X).
Deep Strike	- A Unit made up entirely of models with this rule may perform a Deep Strike Assault.
Duellist's Edge (X)	- Increase model's Initiative when fighting a Challenge by the value in brackets. Default (+1).
Eternal Warrior	- If model suffers an unsaved Wound from Instant Death, it only reduces Wounds by 1 instead of being reduced to 0 Wounds.
Exoshock (X)	- If weapon inflicts a Penetrating Hit, roll a D6, if the score is equal to or higher than the value in brackets an additional Penetrating Hit is inflicted against which Cover Saves may not be taken. Default 6+.
Fear (X)	- All enemy models within 12" reduce their Leadership by the value in brackets. - A model that causes Fear is not immune to Fear.

Rule	Effect
Fearless (C)	- Automatically pass Pinning/Regroup tests, Morale checks, Immune to Fear. - May not be granted a Cover, Armour, Invulnerable Save or Damage Mitigation roll via Reactions. - Cannot choose to fail Morale check due to "Our Weapons are Useless rule". - If unit is Pinned but becomes Fearless all effects of being Pinned are cancelled.
Feel No Pain (X)	- May make a Damage Mitigation roll to avoid taking a Wound using the value in brackets. - May not be used against attacks with the Instant Death special rule. - May not make more than 1 Damage Mitigation roll.
Fleet (X)	- Grants a bonus equal to the value in brackets to the model's Run Moves, Charges Moves and Movement as part of a Reaction. - If unit contains models with different values in brackets, use lowest value.
Fleshbane	- When attacking with a weapon with this rule, always Wounds on a 2+ in Shooting/Assault. No effect on Vehicles or Buildings.
Force	- Model must take a Psychic check, if passed the Strength value of the attack is doubled. If failed the unit containing this model suffers Perils of the Warp.
Firing Protocols (X)	- Grants the model the ability to fire a number of weapons in the Shooting phase equal to the value in brackets. Does not allow a model to fire the same weapon multiple times.
Furious Charge (X)	- Grants a unit Charging into combat a bonus to its Strength equal to the value in brackets on the turn it Charged. - If making a Disordered Charge, receive no benefit.
Gets Hot	- If the To Hit roll is a 1, the model takes a Wound equal to the AP of the firing weapon. No Shrouded or Cover saves may be taken. - For weapons that do not roll to Hit, roll D6 before firing. Roll of a 1 causes a Wound following same rules as above. - If weapon has a re-roll, it only Gets Hot on a 2 nd roll of a 1 - If a Vehicle, roll a 1D6 after rolling the 1, on a 1-2 suffers 1 Glancing Hit.
Graviton Pulse	- Instead of rolling to Wound, target must pass a Str test (6 always fails). - If weapon is a blast, leave the blast marker in place until end of the next Game Turn. This area counts as Difficult and Dangerous Terrain.
Guided Fire	- Attacks made with this special rule do not require LOS.
Hammer of Wrath (X)	- If the model ends its Charge move in base contact. It inflicts a number of additional attacks in brackets at its base strength, AP- at initiative 10. - Does not benefit from other special rules e.g., Furious Charge. - If against a Vehicle/building the hits are resolved against the facing the model is touching.
Hatred (X)	- In the first round of a Combat this model may re-roll all failed to Hit rolls against the target enemy in brackets. - If a new enemy unit Charges into an ongoing combat with a unit with Hatred (X) this counts as a "new" first turn of combat for the effects of Hatred.
Haywire	- When resolving a hit against a model with the Vehicle, Dreadnought or Automata Unit Type, roll a D6 rather than rolling to wound or armour penetration. 1: no effect. 2-5: 1 Glancing Hit / 1 Wound, only invulnerable saves / Damage Mitigation allowed. 6: 1 Penetrating Hit / 1 Wound, no saves or Damage Mitigation allowed.
Hit & Run (C)	- Units may leave combat at the end of any assault phase by passing an Initiative test. - If passed, choose a direction and roll 2D6 + the unit's movement value. If the move is enough to move more than 1" away from every enemy unit, the unit breaks away. - Unit must move the full distance of the roll. - The other unit may only consolidate; no sweeping advances are made. - Not slowed by Difficult Terrain but still take Dangerous Terrain tests. - If both units have this rule, roll off to decide who gets to go first.
Infiltrate	- May deploy a unit wholly comprised of units with this rule anywhere on the table that is no more than 9" away from enemy units so long as no enemy unit can draw LOS to the unit. If LOS can be drawn to the unit, then they may not be deployed closer than 12" to an enemy unit. - An Infiltrating unit cannot charge on the first turn. - If a unit deploys inside their Dedicated Transport, then the Transport follows the above rules to deploy via Infiltrate. - Units with Infiltrate may Outflank.
Ignores Cover	- Cover saves and Shrouded Damage Mitigation saves may not be taken against Wounds or hull point damage caused by weapons with Ignores Cover special rule.
Instant Death	- If a model suffers an unsaved Wound with Instant Death that model is immediately reduced to 0 wounds.
It Will Not Die (X)	- Roll at the end of your turn for any models with this special rule. If the roll is equal to or higher than the value in brackets, that model regains 1 Wound or hull point lost earlier in the game.
Lance	- Count Vehicle armour values higher than 12 as 12.

SPECIAL RULES (p231)

Rule	Effect
Conferring: Special rules that are marked with a (C) are conferred to the rest of the unit so long as 1 model in the unit has this special rule.	
Legiones Astartes (X)	- Grants a unit a number of additional special rules defined in other Horus Heresy publications such as the <i>Liber Hereticus</i> or <i>Liber Astartes</i> .
Lingering Death	- After a weapon with this rule and the blast special rule has attacked, leave the blast marker in place for the rest of the game. This area is now treated as Dangerous Terrain for all models with a Toughness value.
Master-Crafted	- May re-roll 1 failed to Hit roll per turn when attacking with a weapon with this special rule.
Monster Hunter (C)	- Must re-roll all failed to Wound rolls against Dreadnoughts, Automata, Primarchs or models with the Monstrous sub-type.
Move Through Cover	- Ignore any penalties for moving through or Charging through cover for units comprised entirely of models with this special rule.
Murderous Strike (X)	- Any to Wound roll that is equal to or higher than the value in brackets cause Instant Death. Resolve these Wounds first before any other inflicted Wounds.
Night Vision (C)	- Ignore the effects of Night Fighting and enemy models may not make Shrouded (X) damage mitigation rolls to negate Wounds by their attacks.
One Use/One Shot	- Weapon may only be used once per battle, may never be repaired once used or destroyed in the case of vehicles.
Outflank	- A unit made up entirely of models with this special rule may perform a Flanking Assault.
Pathfinder (C)	Automatically passes Dangerous Terrain tests.
Pinning	- If unit suffers an unsaved Wound from this weapon, must take a leadership test or become Pinned. - A unit can take multiple Pinning tests a turn but only once per unit firing. - Pinned units may not; Move, Run, Charge or make Reactions in any phase. - At the end of the unit's following turn the unit is free to act as normal. - If Charged and in cover, enemy units do not receive an Initiative penalty for assaulting a unit in Difficult Terrain. - If a unit becomes Pinned during a Charge, the Charge automatically fails.
Poisoned (X)	- Weapon always wounds on a fixed value in the brackets (Default 4+) - If in combat and Strength of the wielder is higher than toughness of victim, must re-roll failed rolls to Wound.
Power Of the Machine Spirit	- A Vehicle may attack different targets for each of its weapons. Declare all targets before firing.
Precision Shots (X)	- Any to Hit rolls as part of a shooting attack equal to or higher than the value in brackets is allocated against a model (or models) of the attacking player's choice rather the usual wound allocation rules. Target models must be in range and LOS. - Snap Shots, weapons that scatter or do not roll to Hit can never be Precision Shots.
Precision Strikes (X)	- Any to Hit rolls in combat equal to or higher than the value in brackets is allocated against a model (or models) of the attacking player's choice rather the usual Wound allocation rules. Target models must be engaged with the attack model's unit.
Preferred Enemy (X)	- Models may re-roll failed to Hit and to Wound rolls of a 1 when attacking a target equal to the value in brackets (or the unit contains a model equal to the value in brackets i.e., Characters).
Rad-Phage	- If a model loses 1 or more Wounds it reduces its Toughness by 1 for the rest of the battle. The effect is not cumulative but can be combined with other sources that reduce Toughness.
Rage (X)	- If model makes a Charge, it gains a number of additional attacks equal to the brackets instead of the usual +1. - If the model made a Disordered Charge, it gains no additional attacks.
Rampage (X)	- If outnumbered at the start of any Fight-sub phase, the model gains additional attacks equal to the value in brackets. - If the model made a Disordered Charge, it gains no additional attacks.
Relentless	- Models may shoot Heavy or Ordinance weapons, counting as stationary even if they have moved and may charge in the same turn, they fire Heavy, Ordinance or Rapid-Fire weapons.
Rending (X)	- For each To Wound of equal to the value in brackets automatically wounds and is resolved at AP 2. - Against Vehicles, each roll equal to the value in brackets adds an additional D3 to the Armour penetration roll (these are not resolved at AP 2).
Shell Shock (X)	- Pinning tests are taken with a penalty to the Leadership value in brackets.
Shock Pulse	- Any Vehicle, including Super-Heavy Vehicles, Dreadnought or Automata model that suffers a Penetrating hit or unsaved Wound from a weapon with special rule may only fire Snap Shots on the following game turn.
Shred	- When attacking with a weapon with this special rule, it must re-roll all failed to Wound rolls.

Rule	Effect
Scout (C) + Conferred to Dedicated Transport	- Unit may choose to redeploy after Deployment & Infiltrators. - This may take them out of the deployment zone. - Infantry, Artillery, Dreadnought or Automata may redeploy 6". - Any other type may redeploy 12". - Must remain more than 9" away from enemy units. - A Scouting unit cannot charge in the first turn. - A unit may not embark/disembark as part of this redeployment. - Units with Scout may Outflank.
Shrouded (X)	- May make a Damage Mitigation roll to avoid taking a Wound using the value in brackets. - May not be used against mele attacks or with the Ignores Cover special rule. - May not make more than 1 Damage Mitigation roll.
Skyfire	- May fire at Flyers and Skimmers at full Ballistic Skill but Snap Shots at all other targets.
Slow And Purposeful	- As Relentless special rule but a unit containing 1 or more models with this special rule cannot Run, Sweeping Advance or make Reactions.
Sniper	- All Wounds inflicted by a model/weapon with this rule are counted as Precision Shots.
Specialist Weapon	- When attacking with this weapon the model may not receive +1 attack for 2 melee weapons unless it is armed with 2 or more weapons with the Specialist Weapon rule.
Split Fire (C)	- 1 model in the unit can shoot at a different target to the rest of the unit. Once resolved, resolve the shooting for the rest of the unit.
Sunder	- Attacks with may re-roll failed Armour Penetration rolls against Vehicles and Buildings and may re-roll Glancing hits to try and get a Penetrating hit, even if the second result is worse it must be kept.
Strafing Run (X)	- Increase model's BS by value in brackets when attacking any unit without the Flyer sub-type.
Stubborn (C)	- Ignores negative modifiers to leadership when taking Morale checks or Pinning tests.
Support Squad	- The unit may not be chosen as a compulsory choice for the army as part of the Force Organisation chart.
Swarm	- If this model suffers an unsaved Wound from a blast or template weapon (unless the weapon has the Instant Death rule) each unsaved Wound becomes 2 unsaved Wounds.
Twin-Linked	- When attacking with this weapon, the player may re-roll all failed to Hit rolls. - If the weapon is a blast you may choose to reroll BOTH the 2D6 and Scatter dice.
Two-Handed	- When attacking with this weapon never receives +1 attack for fighting with 2 melee weapons.
Unwieldy	- When attacking with this weapon, the model piles-in and fights at initiative step 1, unless model has the Dreadnought Unit Type or Monstrous sub-type.

LEGION SPECIAL RULES (p116*)

Note: The below rules are a condensed version of the Liber army list special rules. Some special rules have been omitted due to length, whereby paraphrasing is not possible. **This has been highlighted in red.**

Legion specific special rules have been omitted for brevity. It is far easier to have your Liber book open to your specific Legion when playing for referencing. ***Found in Liber Hereticus/Astartes.**

Rule	Effect
Conferring: Special rules that are marked with a (C) are conferred to the rest of the unit so long as 1 model in the unit has this special rule.	
Rite of War: This is a unique special rule pertaining to a Rite of War.	
Apothecarion Detachment	- Long special rule, go to page 116.
Area Denial Drop	- Long special rule, go to page 116.
Auxiliary Vehicle Bay	- Models with the Vehicle Unit Type may Embark/Disembark as per transport special rules. - May carry 1 Vehicle model with 4 HP or less. - Model may Embark/Disembark from any point on the model's base or hull if no base.
Bitter Duty	- Unit may not be joined any models without this rule, including Apothecaries & Techmarines.
Breaching (X)	- For each To Wound of equal to the value in brackets is resolved at AP 2. - No effect vs Vehicles or units without Wounds.
Brutal (X)	- For each Wound inflicted, resolve a number of Wounds equal to the value in brackets. Wounds do not spill over onto other models.
Containment Breach	- If model suffers a Explodes result increase the range to D6+3.
Crushing Weight	- When Vehicle Rams, resolve hits at Str12 against Vehicles. - Against Non-Vehicle units resolve 6+D6 Str 10 Hits.
Deathstorm	- When making a Shooting attack, may attack up to 4 different units within range and LOS. May not attack the same unit twice.
Detonation	- Can only attack Vehicle, Dreadnought and Automata Unit Types or a model with a Movement Value of 0. I.e., a Building. - Only make 1 Attack in Assault, regardless of Charging/other rules.
Dreadnought Talon	- Models must be deployed together in coherency but afterwards act independent and are treated as separate units.
Dreadnought Transport	- May transport 1 model with the Dreadnought Unit Type that has no more than 8 wounds. - Dreadnought may not Embark if other models are Embarked. - Other models may not Embark if Dreadnought is Embarked.
Drop Pod Assault	- Long special rule, go to page 99.
Feedback	- If Armour Penetration roll fails or fails a To Wound roll; roll 1D6; on a 1, model loses 1 HP or Wound.
Fury of the Legion	- If this model has not moved or Run in the Movement phase, may add +1 to the number of shots fired for its bolter only.
Graviton Collapse	- Instead of rolling to Wound, each model Hit must roll equal or below their Str on 2D6 or suffer 1 wound. - Against Vehicles roll 4D6 for armour penetration. - Shrouded Damage Mitigation rolls may not be taken.
Harbingers of the Legion	- Unit may not be joined any models without this rule, including Apothecaries & Techmarines. - Never count as a Scoring or Denial unit. - Re-roll failed Shrouded damage mitigation rolls.
Heart of the Legion (C)	- If 50% of the unit is within 6" of an Objective the unit gains Feel No Pain (6+) and Stubborn special rules. - If unit already has Feel No Pain (X) increase it by 1.
Heat Blast	- Long special rule, go to page 119.
Heavy Beam	- Long special rule, go to page 120.
Impact-Reactive Doors	- When deployed model must open any doors to full extent. All models Embarked must Disembark. - No models may Embark for remainder of the game after Passengers have Disembarked. - Unit that Disembarks may not Charge in the same turn they Disembark. - Once opened, doors cannot be targeted with Shooting attacks and do not impede Movement in any way.
Inertial Guidance System	- When deployed via Deep Strike or any other deployment method that requires a Scatter roll, reduce Scatter distance by 50%. - If model scatters onto Impassable Terrain or off the table, reduce the distance necessary to avoid the obstacle. - May re-roll the dice to determine if the Deep Strike Assault is Disordered.
Inexorable	- Ignore modifiers to Leadership when taking Morale checks or Pinning tests. - Does not ignore Leadership modifiers from Fear (X), Corrupted or Anathema sub-types.
Infantry Transport	- May not Transport any models with Bulky (X) special rule.
Legion Artillerists	- May fire 1 Rapier for each alive crew model in the shooting phase. - If the number of crew is equal to or more than the number of Rapiers, the unit automatically passes Pinning tests and gain +1 LD.
Legiones Consularis	- Allows the model to select a single Consul upgrade from the list supplied in its unit entry.
Limited Ammunition	- After firing this weapon, roll 1D6, on a 6+ (or a 5+ if the weapon has previously fired in the same battle) the weapon may not fire for the rest of the game. - Once the weapon has run out of Ammunition it may not be targeted with Weapon Destroyed results.

Rule	Effect
Loyalist	- May only be included in an army with the Loyalist Allegiance.
Marked for Death	- Pick 1 enemy unit after Deployment (Including Infiltrating units) - Unit may re-roll any Wound rolls of 1 for rest of the game when attacking the target unit.
Master of Automata	- Model may join a unit which includes 1 or models with the Automata Unit Type. - Gains Fearless whilst part of the unit. - May not make Reactions whilst part of the unit. - Automata in the same unit are not subject to Programmed Behaviour whilst this model is part of the unit.
Master of the Legion	- May select 1 Rite of War. - May only include 1 per 1,000 points. - May select a Legion, Cataphractii or Tartaros Command Squad as part of same FOC.
Master of Armour – Warlord Trait (p103)	- Gains Master of the Legion special rule. - Gains a 5+ Invulnerable Save and +1 BS. - May not have a Retinue of any kind. - Must be the Warlord.
Neutron-Flux	- Any Wounds inflicted gain Instant Death vs models with the Automata Unit Type
Orbital Assault Vehicle	- Model must be deployed via Deep Strike Assault or other deployment that requires the Deep Strike special rule. - If model is forced to deploy it is reduced to 0 HP and is replaced with a Wreck. Embarked models must make an Emergency Disembarkation. - Model may never move and if forced to move is reduced to 0 HP and replaced with a Wreck. Embarked models must make an Emergency Disembarkation.
Plasma Burn	- If target loses 1 or more HP, roll 1D6. On a 4+ the model loses D3 HP with no Cover saves or Damage Mitigation rolls allowed.
Reach (X)	- When attacking using this weapon, increase the wielder's Initiative by the value in brackets.
Reactor Blast	- If model suffers a Explodes result increase the Str of any hits to 10.
Reaping Blow (X)	- If model is in base contact with more than 1 model increase its Attacks by the value in brackets.
Repair	- Instead of making any Shooting Attacks in the controlling player's Shooting phase, roll 1D6, on a 4+ remove the Immobilised effect from this model (HP damage is not repaired).
Retinue	- Long special rule, go to page 124.
Rocket Barrage	- If model does not move in Movement phase, the weapon gains Rending (4+) and Pinning special rules until the start of the controlling player's next turn.
Spite of the Legion (C)	- If model Charges an enemy unit that is Pinned, Falling Back or includes no models with the Character sub-type or Chosen Warriors special rule, all models in Charging unit gain +1 Attack for the duration of the assault phase in which they Charged.
Subterranean Assault	- Long special rule, go to page 101.
Sudden Strike (X)	- Increase model's Initiative equal to the value in brackets after it successfully Charges an enemy unit until end of the assault Phase. - If making a Disordered Charge, gain no bonus.
Talons of the Legion	- Long special rule, go to page 125.
Techmarine Covenant	- Long special rule, go to page 125.
Torsion Crusher	- Double any HP damage caused by this weapon when attacking models with an AV.
Traitor	- May only be included in an army with the Traitor Allegiance.
Transport Bay	- May transport Dreadnought, Automata and Cavalry Unit Types - Dreadnought counts as 10. - Automata and Cavalry count as double their starting wounds characteristic.
Venerable Ancient (p103)	- Gains Character sub-type. - Gains Master of the Legion and Eternal Warrior special rules. - Gains an Iron Halo (Does not replace Atomantic Deflector). - May not have a Retinue of any kind. - Must be the Warlord.
Void Shields (X)	- Model has number of Void Shields equal to value in brackets. - Each Void Shield has an AV of 12 and is destroyed by any Glancing/Penetrating Hit or hit by a Destroyer Weapon. - Has no effect vs close combat attacks.
Volatile Plasma Containment	- If vehicle loses last HP due to Gets Hot it Explodes. - If model suffers a Explodes result increase the Str of any hits to 10.

MISSIONS (p312)

Mission 1: Blood Feud

Setup:

- Roll deployment maps or agree with opponent.

Deployment:

- Roll off, winner decides to deploy 1st or 2nd and selects their Deployment Zone.
- Player who deploys first, deploys their entire army except units held in Reserves.
- Player notes down their Blood Feud Target secretly.

First turn:

- Player who deployed first goes first, unless opponent can Seize the initiative.

Length:

- 6 turns.

Victory Conditions:

- Player with most VPs wins, if equal game is a draw.

Primary Objectives:

- Blood Feud:** After setting up and deploying armies, each player secretly notes down a Blood Feud target from below list. If the target unit is destroyed or Falling Back, player gains VPs equal to below list.

Blood Feud Targets:

- Infantry:** +1 VP.
- Daemon:** +1 VP.
- Dreadnought & Automata:** +2 VP.
- Cavalry & Flyers:** +2 VP.
- Non-flyer Vehicles:** +2 VP.
- Primarch:** +6 VP.

Secondary Objectives:

- Slay the Warlord:** Worth +1 VP or +2 VP if a Primarch.
- Last Man Standing:** Most surviving units alive, +1 VP
- The Price of Failure:** +1 VP if destroyed.

Special Rules:

- Reserves, Night Fighting.

Mission 2: Onslaught

Setup:

- Roll deployment maps or agree with opponent.

Deployment:

- Roll off, winner decides to deploy 1st or 2nd and selects their Deployment Zone.
- Player who deploys first, deploys following **Staged Deployment** rules.
- After both sides have deployed, including Infiltrators and after Scout redeployments. Each player places a single Onslaught Objective in the enemy deployment Zone, at least 6" away from any table edge. Player who deployed first places the Objective first.

First turn:

- Player who deployed first goes first, unless opponent can Seize the initiative.

Length:

- 6 turns.

Victory Conditions:

- Player with most VPs wins, if equal game is a draw.

Primary Objectives:

- Onslaught Attack:** Each enemy unit destroyed in 1st Game turn is worth +1 VP.
- Seize the Onslaught Objectives:** Worth 5 VP's if controlling enemy Objective at end of the game.

Secondary Objectives:

- Slay the Warlord:** Worth +1 VP or +2 VP if a Primarch
- Attrition:** Most destroyed enemy units, +1 VP.
- The Price of Failure:** +1 VP if destroyed.

Special Rules:

- Reserves, Night Fighting, Stage Deployment.

Staged Deployment:

Players place units 1 at a time, alternating* as per the order below. Player who won the roll off, deploys a unit first.

Unit Order:

- Fortifications
- Lords of War & Primarch units
- Heavy Support Units
- Troop units
- Elite units
- HQ units**
- Fast Attack units

*If one player does not have any units of the above list, move to the next order.

**May be placed inside units, do not have to be deployed alone. E.g. the HQ is attached to a Fast Attack unit.

Mission 3: Shatter Strike

Setup:

- Roll deployment maps or agree with opponent.

Deployment:

- Roll off, winner decides to deploy 1st or 2nd.
- Player who deploys first, deploys their entire army except units held in Reserves.
- Player notes down their Blood Feud Target secretly.

First turn:

- Player who deployed first goes first, unless opponent can Seize the initiative.

Length:

- 5 turns, 6th played on a 4+.

Victory Conditions:

- Player with most VPs wins, if equal game is a draw.

Primary Objectives:

- Shatter Strike:** At end of the game each player scores 2 VPs for every friendly Scoring unit in the enemy Deployment Zone and 1 VP for every Denial unit.

Secondary Objectives:

- Slay the Warlord:** Worth +1 VP or +2 VP if a Primarch.
- Attrition:** Most destroyed enemy units, +1 VP.
- The Price of Failure:** +1 VP if destroyed.

Special Rules:

- Reserves, Night Fighting.

Mission 4: Dominion

Setup:

- Roll deployment maps or agree with opponent.

Deployment:

- Place Dominion Objectives in accordance to Objective Placement rules.
- Roll off, winner decides to deploy 1st or 2nd and selects their Deployment Zone.
- Player who deploys first, deploys their entire army except units held in Reserves.

First turn:

- Player who deployed first goes first, unless opponent can Seize the initiative.

Length:

- 5 turns, 6th played on a 4+.

Victory Conditions:

- Player with most VPs wins, if equal game is a draw.

Primary Objectives:

- Dominion Objectives:** At the start of each Active Player's turn, they gain +1 VP for each Objective they control. Keep a tally even if control of Objective is later lost.
- Seize the Onslaught Objectives:** Worth 5 VP's if controlling enemy Objective at end of the game.

Secondary Objectives:

- Slay the Warlord:** Worth +D3 VP or +3 VP if a Primarch.
- Attrition:** Most destroyed enemy units, +D3 VP.
- The Price of Failure:** +1 VP if destroyed.

Special Rules:

- Reserves, Night Fighting, Dominion Objectives.

Dominion Objectives:

- The mission uses 5 Objective Markers.
- Before either player deploys any models but after Deployment Maps have been determined, players alternate placing the objectives outside of the players' deployment zones.
- Objectives may not be placed within 6" of each other or a table edge.

Alternative - Objective Terrain:

- Use 3 large Terrain pieces no larger than 6" wide and 12" long.
- Terrain pieces must be located outside deployment zones.

To score/deny players must have at least 1 model within 6" of the centre of the Terrain's ground level.

Mission 5: Tide of Carnage

Setup:

- Roll deployment maps or agree with opponent.

Deployment:

- Roll off, winner decides to deploy 1st or 2nd and selects their Deployment Zone.
- Player who deploys first, deploys their entire army except units held in Reserves.

First turn

- Player who deployed first goes first, unless opponent can Seize the initiative.

Length:

- 5 turns.

Victory Conditions:

- Player with most VPs wins, if equal game is a draw.

Primary Objectives:

- Tide of Carnage:** Players score VPs for each sector of the battlefield they control. To control a sector a player must have 1 or more scoring units in the sector and there must be no enemy scoring units.

Sectors:

- Player's Own Deployment Zone:** +3 VPs.
- No Man's Land:** +5 VPs.
- Enemy Deployment Zone:** +7 VPs.

Secondary Objectives:

- Slay the Warlord:** Worth +1 VP or +2 VP if a Primarch.
- Last Man Standing:** Most surviving units alive, +1 VP
- The Price of Failure:** +1 VP if destroyed.

Special Rules:

- Reserves, Night Fighting, Heavy Armour.

Heavy Armour:
All Vehicles that are not Flyers are classed as Scoring Units.

Mission 6: War of Lies

Setup:

- Roll deployment maps or agree with opponent.

Deployment:

- Place 1 Objective Marker in the centre of the table.
- Each player alternates placing 2 objectives each, anywhere on the table but not within 12" of each other or 6" from a table edge.
- Roll off, winner decides to deploy 1st or 2nd and selects their Deployment Zone.
- Player who deploys first, deploys their entire army except units held in Reserves.

First turn:

- Player who deployed first goes first, unless opponent can Seize the initiative.

Length:

- 6 turns.

Victory Conditions:

- Player with most VPs wins, if equal game is a draw.

Primary Objectives:

- Death Toll:** Players score 1 VP for each enemy unit they have destroyed or is Falling Back at the end of the game.
- War of Lies:** At the end of the game, roll 1D6 for each objective controlled by the player to determine VPs.

- 1-2:** +0 VP.

- 3-4:** +1 VP.

- 5-6:** +3 VP.

Secondary Objectives:

- Slay the Warlord:** Worth +1 VP or +2 VP if a Primarch.
- The Price of Failure:** +1 VP if destroyed.

Special Rules:

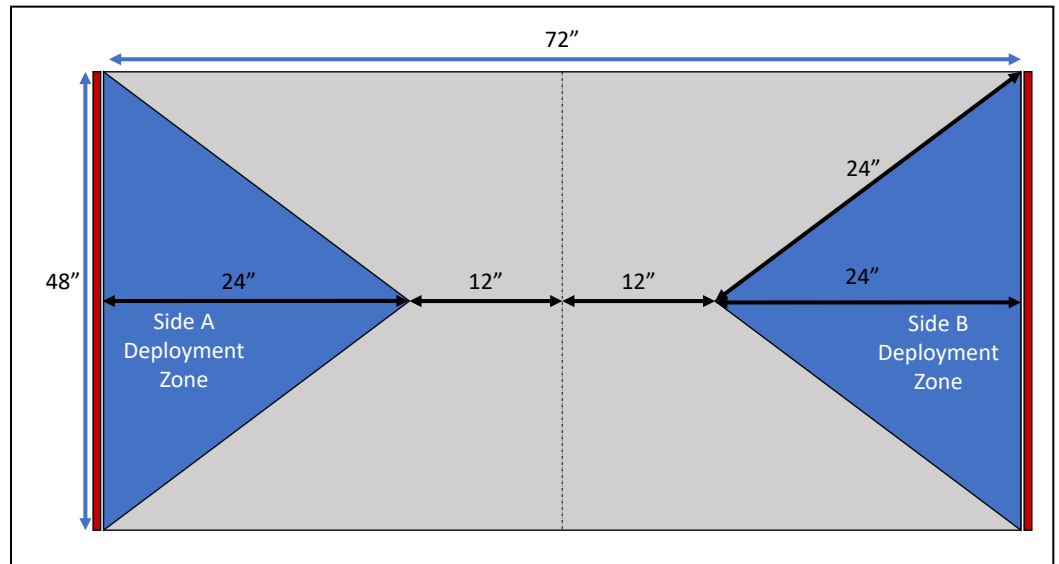

- Reserves.

DEPLOYMENT MAPS (p302)

1. Clash of the Line

For the purposes of determining where units Fall Back towards & Reserves arrive from, player's own battlefield edge (**Red**) is the edge that forms the rear of the arrow.

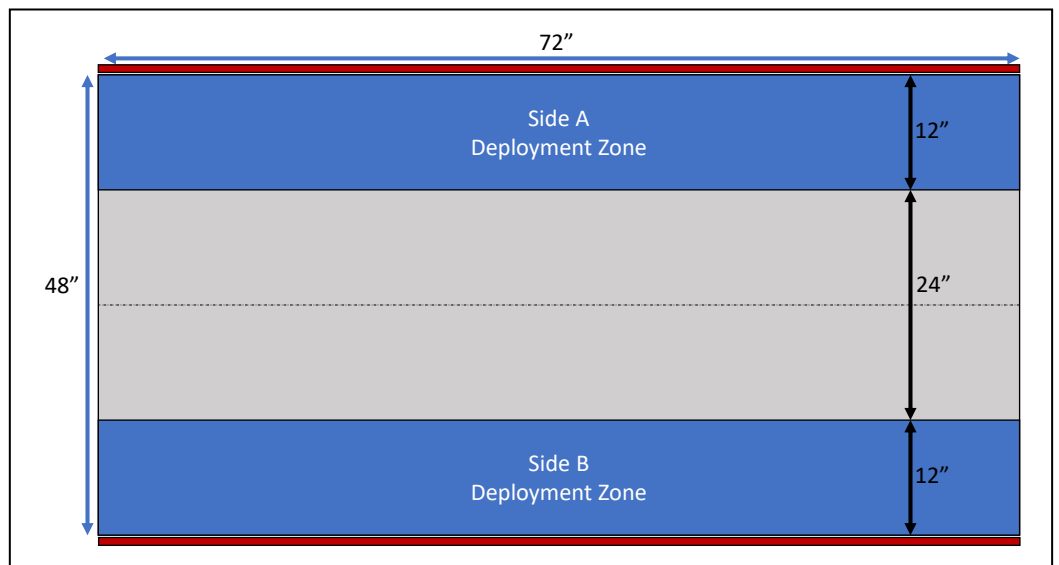

Grey areas are No Man's Land.

2. Dawn of War

For the purposes of determining where units Fall Back towards & Reserves arrive from, each player's own battlefield edge (**Red**) is the long edge that touches their own deployment zone.

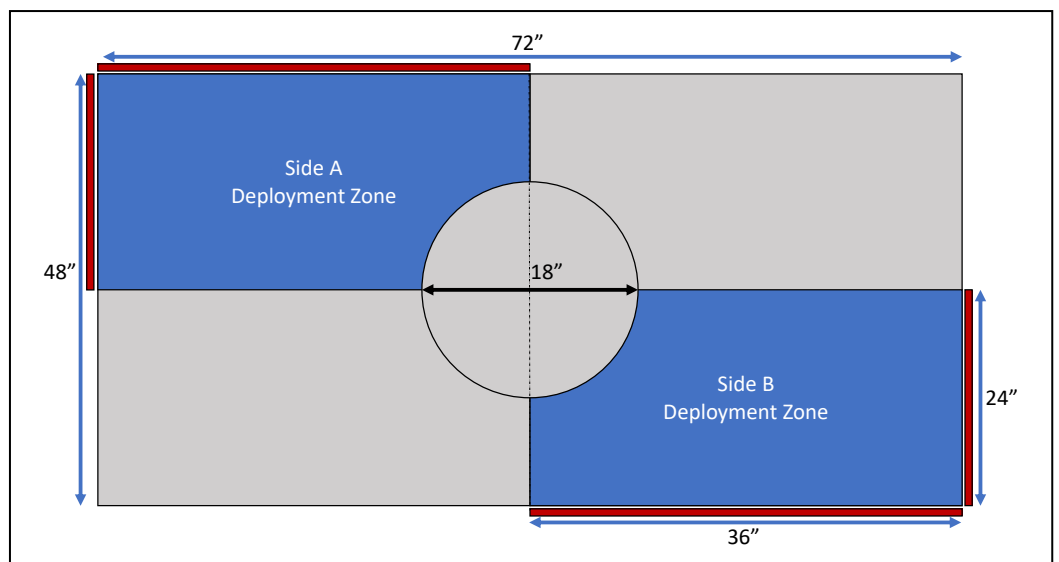

Grey areas are No Man's Land.

3. Search and Destroy

For the purposes of determining where units Fall Back towards & Reserves arrive from, player's own battlefield edge (**Red**) is any edge that forms part of their deployment zone.

Grey areas are No Man's Land.

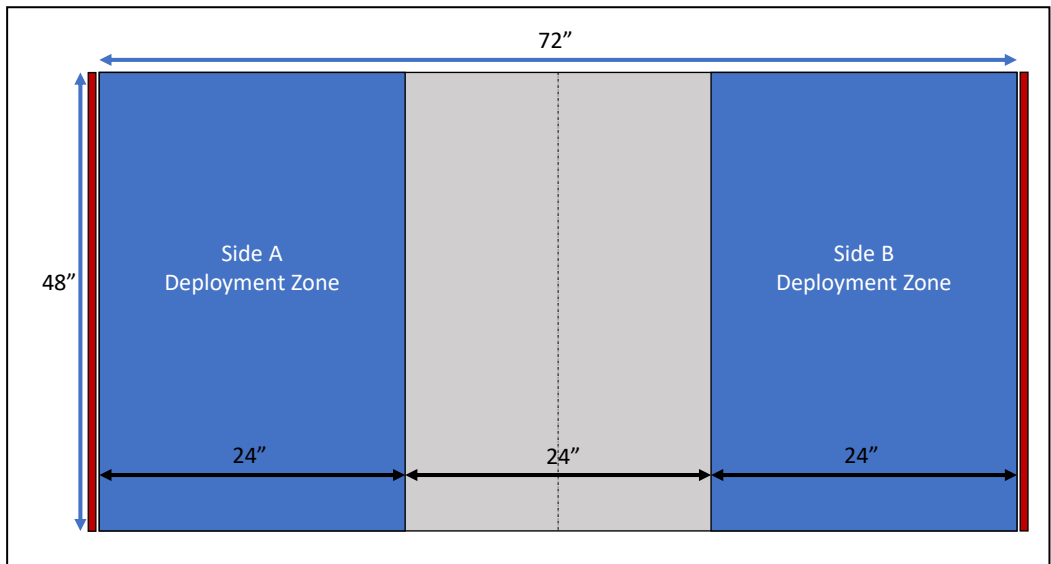

DEPLOYMENT MAPS (p302)

4. Hammer and Anvil

For the purposes of determining where units Fall Back towards & Reserves arrive from, player's own battlefield edge (**Red**) is the short edge that touches their own deployment zone.

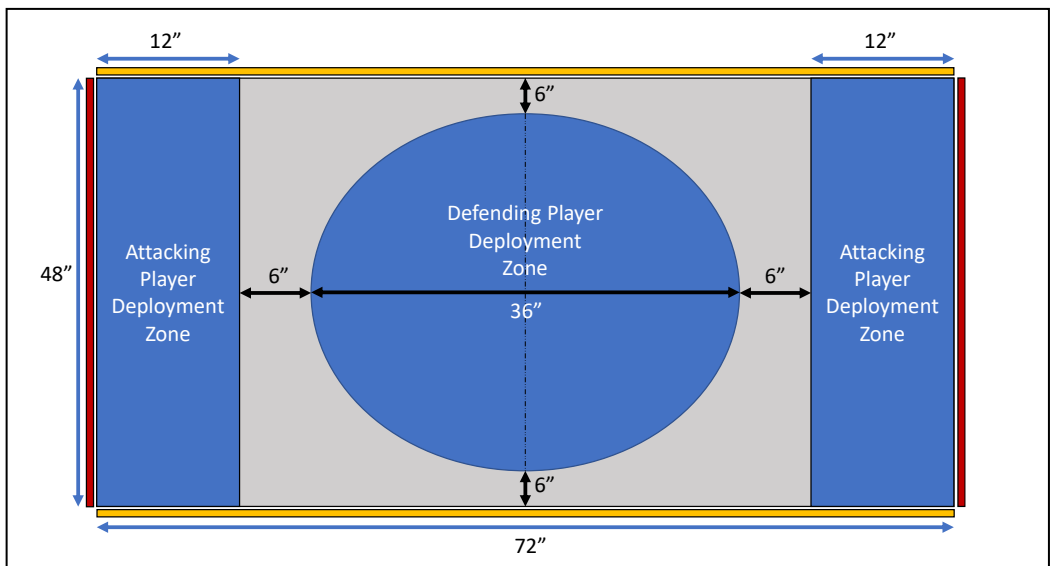

Grey areas are No Man's Land.

5. Ambush

For the purposes of determining where units Fall Back towards & Reserves arrive from, the Attacking Player's battlefield edge (**Red**) is the short edge that touches their own deployment zone. The Defender uses the long table edges (**Yellow**).

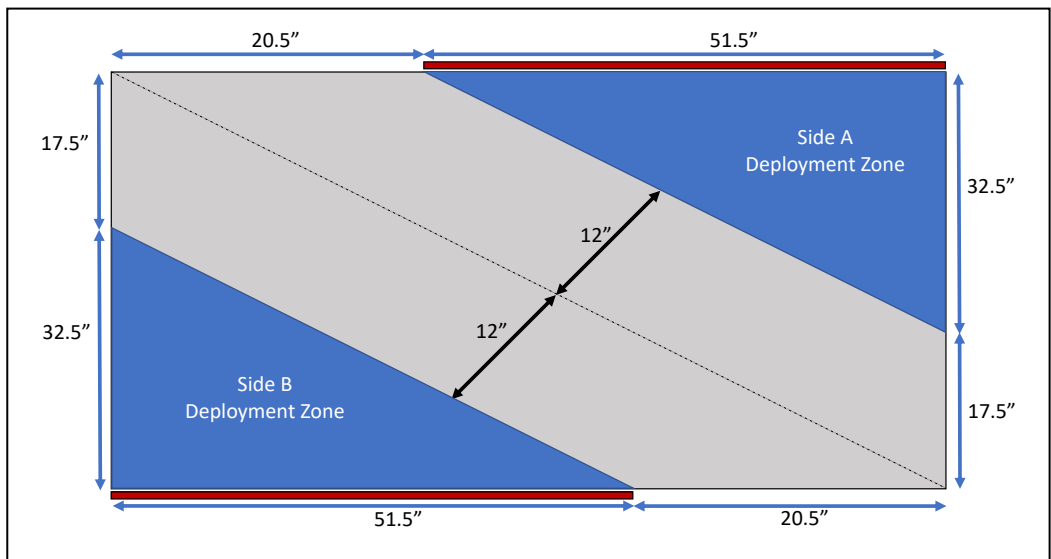

Grey areas are No Man's Land.

6. Vanguard Strike

For the purposes of determining where units Fall Back towards & Reserves arrive from, each Player's battlefield edge (**Red**) is the long edge that touches their own deployment zone.

Grey areas are No Man's Land.

The Heraldic Crest of The Flaymaster & Helio Centius

GENESIS

The crest of Helio Centius proudly displays a long extinct Terran apex predator: the deadly Hippocampus. Records indicate the animal resided in great numbers across the Caucasus Wastes and Afrik plains, until the grand eugenic cleansings of Old Night.

This vile creature supposedly had highly advanced sensory apparatus including a grossly enlarged limbic system that could beguile and paralyse its prey.*

It is fitting that the planetary authority is represented by such a foul abomination considering the hordes of vicious beasts that stalk the planet's dunes.

**Enlarged limbic system found to be present in "Hypno Toad" specimen dissections.*
